

Technology Advisory Council Meeting Notes

Mission Statement

The Technology Advisory Council is committed to collaborating in the effort to advance the appropriate use of technology to support teaching and learning through professional development for inservice and preservice teachers.

Welcome

Sharing – what is new with the constituents

Helen: Technology is limited in Middle School, English usually requires a lot technology lab time; Allegany County has quarterly all county exams for grades 6 to 12 and labs are needed to take the exams

Chuck: Garrett County data collection and assessment in online and is housed in a centralized database; Princeton Review is used the elementary grades and middle school; students participated in regional robotics competition; county offered three elementary school technology camps

Mike: teachers can get extensive testing profiles from password protected web site

Sue: Mineral County is using 21st Century Learning, GradeQuick, TI Navigator system, Odyssey Software for the middle school, Palm Pilots; writing assessment is online

Art: students worked in the upward bound program where they used Sanyo DVD camcorders to record video to make iMovies of their programs; students are using SIM software for fitness center business simulations

Data Collection – Use of surveys

Review of student admission to program technology survey (originally used during the PT3 grant). Changes suggested for the survey. Survey created in TaskStream. Copy attached.

Planning for next meeting

November 8th, 2006 4 PM

Work on surveys, suggestions for other data to be collected and other means of collection, review of use of TaskStream
