

Dr. Kim Rotruck presented an overview of the MAT and technology-based assignments for the program.

TECHNOLOGY CONNECTIONS

A Workshop for Tech Reps and Supervisors*

Dr. Marcia Cushall presented information on the undergraduate programs and the integration of technology into field-based assignments. She also discussed the MTTs and the technology performance assessments.

Participants discussed technology needs and practices within their schools. They reviewed the surveys administered in the spring to teachers in their schools. Using this information they charted inservice needs in relation to the MTTs.
