

Electronic Portfolio Tip Sheet (IBM)

Animating pages

To make your slides more interesting, add some animation to your presentation!

First, click on the **slide show** button of the menu bar.

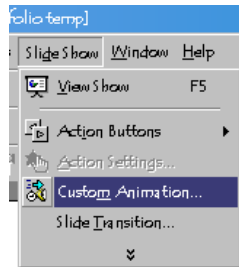

Then select **Custom Animation**.

Check the items you want to animate.

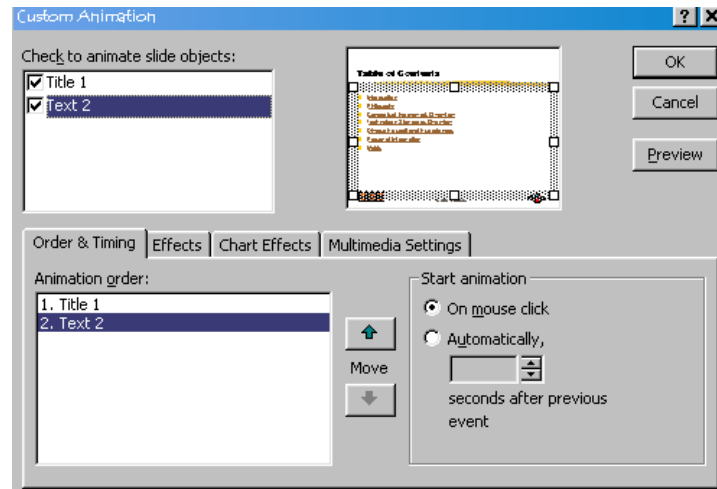

Now click on the **Effects** tab.

TaDa! You can now decide how you want the information to pop up on the slide.
You can also add sound for more special effects.
