On his way, Finch tackles such familiar dangers as the aggressively compliant "company man," the boss' whiny, nepotistic nephew, the office party, the backstabbing co-workers, caffeine addiction and, of course, true love.

## S.A.F.E. Sessions

### Mark Sterner: "DUI — A Powerful Lesson"

Losing someone close to you is difficult. What's worse is if you caused the death, or even the death of several close friends.

Mark Sterner presents "DUI: A Powerful Lesson" Tuesday, Oct. 12, at 7 p.m. in the Performing Arts Center Recital Hall. Sterner was a member of Tau Kappa Epsilon at a Rhode Island college when he and four fraternity brothers took off for Spring Break.

The group also took a video camera and recorded the fateful series of events up until 15 minutes before the fatal crash. Sterner was sentenced to 23 months in a Florida prison for the deaths of three of his fraternity brothers.

Sterner focuses on how careless choices can make such an impact, leaving many students to walk away with a new sense of reality.

For more information, contact the S.A.F.E. office at 017 Compton Hall, x7692.

The event is sponsored by the Western Maryland Regional Safe Community Center, the National Pan-Hellenic Council and the International Fraternal Council.

### "Ten Seconds Can Change Your Life"

The FSU S.A.F.E. Office will sponsor "Ten Seconds Can Change Your Life" by motivational speaker Bobby Petrocelli on Wednesday, Oct. 20, at 7 p.m. in the Lane Center Multi-Use Room.

A Brooklyn, N.Y., native, Petrocelli found his life changed instantly when a three-quarter ton pickup truck crashed through the wall of his bedroom moving at over 70 miles per hour. The driver's blood alcohol level was twice the legal limit. Petrocelli found himself sitting dazed and injured in his dining room window. His wife was dead.

"Ten Seconds," the riveting story of how Petrocelli triumphed over tragedy, captivates audiences of all ages and backgrounds inspiring all to live a life of passion, faith, love and forgiveness.

"There is power in one decision. Every decision we make - good or bad - has the power to impact our future," he says. "Things don't just happen. Constructing our life's foundation is accomplished one brick, one decision,

10 seconds at a time. It can change your life forever."

Petrocelli has been featured on television, radio and in print. He is a teacher, counselor and coach holding both a bachelor's degree in health and physical education and a master's degree in counseling.

This event is free and open to the public. It is sponsored by the Western Maryland Regional S.A.F.E. Communities Center as part of National Collegiate Alcohol Awareness Month. For information, contact the FSU S.A.F.E. Office, x4761.

The group will be assisted by Professor Frank Fleckenstein from the FSU Philosophy Department.

The program is titled "Songs of My People" and is a celebration of the cultural - especially musical and religious - contribution of African Americans in the second millennium A.D.

The event will be Monday, Oct. 18, at 7 p.m. in the Performing Arts Center Pealer Recital Hall. It is free and open to the public.

For information, contact Dr. Jean-Marie Makang, Coordinator of African American Studies at x3089 or Dunkle Hall 130.

## In Case of Fire

### Fire alarm procedures for staff:

1. Be familiar with a primary and alternate evacuation route from each area in which you are assigned to work.

2. When an alarm sounds, proceed in a safe and orderly fashion to the nearest clear exit. In cold or inclement weather, take outer clothing

3. Use the secondary exit if there are smoke or flames between you and the primary exit.

4. If you are supervisor, be sure that your employees react promptly to the alarm.

5. Use the stairs, not the elevator. Assist any disabled individuals. If you can't help the disabled person out of the building, assist him/her to an enclosed stair tower, safe from smoke, flame and gases. If you leave a disabled person in a

stair tower, be sure to notify fire personnel.

6. Instruct students or others to evacuate via the nearest clear exit.

7. Do not congregate near exits.

8. If, in your personal judgement, time and conditions permit, turn off all heat-generating appliances. Likewise, secure cash, valuables and sensitive data, and shut doors and windows.

9. Do not re-enter the building until University Police give the "all-clear."

### Procedures for faculty:

1. Be familiar with a primary and alternate evacuation route from each area that you teach in. Evacuation route information (including instruction not to use elevators) should be shared with students during the first meeting of each class and each time a fire alarm sounds.

2. When an alarm sounds, release the class IMMEDIATELY, telling student to proceed in a safe and orderly fashion to the nearest clear exit. You should evacuate also.

3. Assist any disabled individuals out of the building or to an enclosed stair tower, where they will be protected from flame, smoke and gases. If a disabled person is left in a stair tower, fire personnel must be notified.

4. If, in your personal judgement, conditions permit, heat-generating appliances should be turned off in the exit process. Doors and windows should be shut.

5. Assist in preventing students from congregating near building exits.

6. The building should not be re-entered until University Police give the "all clear."

7. Requirements to leave the building apply to faculty during non-teaching times as well.
