College of Liberal Arts & Sciences Strategic Plan

Vision Statement

The College of Liberal Arts and Sciences will be recognized for providing experientially based learning opportunities. Its distinctive and distinguished programs will contribute to the reputation of Frostburg State University as the premier educational and cultural center for the region and for serving as a catalyst for economic development. The college's efforts in undergraduate research and experiential learning will achieve national recognition for providing "real life" experiences for students and for serving as a national model for regional engagement.

Mission

The mission of the College of Liberal Arts and Sciences (CLAS) is to provide students with a rigorous liberal arts and sciences curriculum grounded in a flexible, broad-based general education program and enriched by the availability of challenging academic majors and minors, graduate programs, interdisciplinary offerings, and other newly evolving programs that are responsive to emerging societal needs.

The college mission is implemented through a diverse, recognized, and credentialed faculty committed to excellence in teaching, learning, scholarship, and creative artistic production.

CLAS fulfills its mission by preparing future leaders to enter a complex changing global society with competence and confidence.

Core Values

1. We value a high standard of excellence in teaching, service, research, and other professional endeavors.
2. We value a stimulating, collaborative, and supportive setting for students, faculty, staff, and administrators characterized by creativity, innovation, and excellence.
3. We value lifelong learning and professional development for students, faculty, staff, and administrators.
4. We value an atmosphere of mutual respect and support, which promotes open sharing of ideas and viewpoints and debate of issues and concerns.
5. We value high standards of ethics, integrity, responsibility, and accountability.
6. We value the active participation of stakeholders in the planning and development of programs.

7. We value diversity and an atmosphere of mutual respect and acceptance.
8. We value interdisciplinary collaboration.
9. We value assessment as a mechanism for continuous improvement.
10. We value nimble response to change.

Fundamental Assumptions

1. Teaching methodologies, strategies, curricula, and classroom architecture must be informed by research on the science of learning.
2. In an environment of accelerating change, FSU must be responsive to emerging needs of society.
3. A pattern of continuously diminishing state resources for public higher education has developed nationally.
4. New or expanded programs will be supported by reallocation of existing resources or through external funding.
5. Following the Board of Regents initiative, FSU will continue to improve effectiveness and efficiency.
6. Collaboration across programs, departments, divisions, and colleges can lead to enhanced student learning and improved effectiveness and efficiency.
7. Growth of FSU student population will continue but not uniformly across colleges or departments.
8. Faculty development is critical to achieving educational objectives.
9. CLAS will increase its support of economic development throughout the region.

Addictions Counseling

EMPHASIS

Coordinator: Dr. Lisa Morshead, Associate Professor, Dept. of Psychology

Frostburg State University offers an Emphasis in Addictions Counseling to help prepare you to be a Certified Addiction Counselor. As the course requirements are currently undergoing changes at the time of this catalog’s printing, please contact the Emphasis Coordinator (Dr. Lisa Morshead) or the Chair of the Psychology Department (Dr. Michael Murtagh) for the most up-to-date information in this area.

African American Studies

MINOR

Coordinator: Dr. James Saku, Professor, Department of Geography

Professors: Armiento (English and Foreign Languages), Idris (English and Foreign Languages), Saku (Geography), Makang (Philosophy), Moore (Sociology), O’Rorke (Political Science), Yost-Rushton (Theatre and Dance)

Associate Professors: Abbay (History), Redmond (Psychology), Rogers Thomas (Sociology)

Assistant Professor: English (Visual Arts)

Lecturers: Stevenson (Athletics), Wynder (Diversity Center)

- You may minor in African American Studies. There is no major available.
- All courses in African American Studies may be taken whether or not you wish to pursue the minor.
- A listing of Special Topics courses offered for the minor in future semesters is available through the Coordinator.

Program Requirements

Special Topics courses numbered 290, 403, 490 or 491 in the participating departments when approved by Coordinator.

Independent Studies courses numbered 499 when approved by the Coordinator, limited to one 3-hour total enrollment.

Animal Behavior

MINOR

Coordinator: Erica Kennedy, Associate Professor, Dept. of Psychology

Professors: Raesly, Serfass (Biology)

Associate Professors: Lambert (Biology), Kennedy (Psychology)

Assistant Professors: Hocking (Biology), Lambert (Biology)

- Animal Behavior is an interdisciplinary minor.
- You cannot major in animal behavior.
- You may find this minor of special interest if you are majoring in biology, interpretive biology and natural history, psychology, or wildlife and fisheries, or if you wish to attend veterinary medicine school.
- Advanced students may apply to care for and conduct research with FSU's small colony of cotton-top tamarin monkeys or to assist with field research projects studying diverse animals in their natural habitats.

MAJOR

TEACHING CERTIFICATION OPTION

Professors: Brown, Davis, Dieruf

Associate Professors: English (Chair), Hein, Herzfeld, Hodges, Odone

- If you complete the major in Art & Design, you will earn the Bachelor of Fine Arts (BFA) degree.
- Minors are offered in art history, fine arts, and graphic design. An emphasis is offered in Computer Print Graphics. See separate sections of catalog.
- You must successfully pass Studio Focus Review (ART 291 – concurrent enrollment in second advanced studio course) and Senior Review (ART 491 – concurrent enrollment in ART 411).

- You must successfully complete ART 207 Graphic Design by the time you earn 45 credit hours. ART 207 also provides instruction in technology fluency and information literacy for BFA candidates.
- Only courses in which a grade of C or better is earned may count towards satisfaction of major and minor requirements.
- Optional internships are available to qualifying students.

Requirements for P-12 Teaching Certification Option in Art

If you wish to complete a Maryland State approved program in teaching Art, you must:

- Complete the BFA in Art and Design.
- Meet the phase admissions requirements summarized in the Educational Professions section.
- Complete the professional education sequence described in Education: P-12 Programs.

If you are interested in teaching Art ...

Students wishing to teach Art PK12 level (elementary, middle and high school) can obtain both a Bachelor of Fine Arts in Art and Design and a Master of Arts in Teaching (MAT) in five years through the following pathway offered by the MAT Secondary program. This pathway requires students to take nine credits of specified graduate courses while completing their undergraduate program in Art. These nine graduate credits will be used as electives toward the undergraduate degree as well as the requirements of the MATS.

Students interested in this pathway should:

- Discuss the MATS pathway option with their first-year advisor.
- Meet with the MATS Coordinator as a first-year or sophomore.
- Apply to the MATS program in the Spring of their sophomore year (February 1 application deadline).
- Once conditionally admitted (a requirement for the following graduate courses to count as electives in the undergraduate program as well as in the MATS program) take:
 - REED 517 Reading in the Content Area (Fall or Spring Junior or Senior year).
 - SPED 551 Adapting Instruction in Diverse Classrooms (Fall Senior year).
 - SCED 510 Secondary Methods in Curriculum (Spring Senior year).

Please note that students who are considering this pathway should work with their advisor to create a plan of study that allows these 9 credits of graduate courses to be taken in the Junior and Senior years in addition to a minimum of 12 undergraduate credits per semester.

If you are interested in teaching chemistry ...

Students wishing to teach chemistry at the secondary school level (middle and high school) can obtain both a Bachelor of Science in Chemistry and a Master of Arts in Teaching – Secondary (MATS) in five years through the following pathway offered by the MATS program. This pathway allows students to take up to nine credits of required graduate courses while completing their undergraduate program in chemistry. These nine graduate credits will be used as electives toward their undergraduate degree as well as the requirements of the MATS.

Students interested in this pathway should:

1. Discuss the MATS pathway option with their first-year advisor.
2. Meet with the MATS Coordinator as a first-year or sophomore.
3. Apply to the MATS program in the Spring of their sophomore year (February 1 application deadline).
4. Once conditionally admitted (a requirement for the following graduate courses to count as electives in the undergraduate program as well as in the MATS program) take:
 - a. REED 517 Reading in the Content Area (Fall or Spring of Junior or Senior year).
 - b. SPED 551 Adapting Instruction in Diverse Classrooms (Fall Senior year).
 - c. SCED 510 Secondary Methods in Curriculum (Spring Senior year).

Please note that students who are considering this pathway should work with their advisor to create a plan of study that allows these nine credits of graduate courses to be taken in the Junior and Senior years in addition to a minimum of 12 undergraduate credits per semester.

EMPHASIS

Professors: Brown, Davis, Dieruf

Associate Professors: English (Chair), Hein, Herzfeld, Hodges, Odone

- The emphasis in Computer Print Graphics is offered by the Department of Visual Arts. The department also offers a B.F.A. in Art and Design and minors in art history, fine arts and graphic design.
- You should consider this emphasis if you are a degree-seeking student in another major who would like to acquire additional skills to enhance your professional marketability or a community member seeking professional education in the technology sector.
- Classes are scheduled so you can complete the emphasis in four semesters.

Program Requirements

	EMPHASIS
Hours Required in Art:	24
Hours Required in Other Departments:	0
Total Hours Required:	24

The emphasis in Computer Print Graphics is designed to assist you to:

- Understand the role a computer plays in a graphic designer’s career
- Learn the basic functions of the Macintosh computer
- Gain fundamental knowledge of graphic applications like QuarkXpress, Adobe Illustrator and Adobe Photoshop
- Learn reproduction and manipulation of scanned images
- Create comprehensive layouts
- Develop a personal design style and vocabulary based on knowledge of past and contemporary design trends, materials and commercial printing techniques

Requirements for Emphasis in Computer Print Graphics

Students may transfer a maximum of 12 credits into the program selected from ART 104, ART 207, ART 212 and ART 336.

Required Courses: (24 hours)

- ART 104 Two-Dimensional Design
- ART 207 Graphic Design

- Computer science courses must have a grade of C or better to be applied towards major or minor requirements.
- You will be de-registered from any computer science course for which you have not earned a C or better in the prerequisite computer science course(s).
- You may receive credit by examination for the following courses: COSC 100, 101, 240, 350.
- The Department of Computer Science & Information Technologies also offers four certificates to students in other majors and community members. (See separate section).

Mission Statement

The Computer Science & Information Technologies Department's mission is to present our students with up-to-date curricula and pedagogy in the computer science and information systems disciplines, ensure that they have a solid foundation in the core concepts, equip them with problem solving and decision-making skills, and prepare them for lifelong learning in the discipline. The department provides for and encourages collegial, intellectual, and academic growth of its faculty. The department supports and encourages local and regional technology initiatives contributing to educational and economic advances.

Program Educational Objectives

The Frostburg Computer Science program will graduate computer science professionals who have:

- A solid foundation in core computer science concepts reinforced with mathematics and natural science
- An ability to apply modern computer science concepts and theories to contemporary, real world problems
- An understanding of professional responsibility to evaluate their ethical obligations to society, employers, employees and their peers
- An understanding of the commitment needed to pursue life long goals through educational and professional endeavors

Program Outcomes

The Frostburg Computer Science program will provide students with:

- An ability to apply knowledge of computing and mathematics appropriate to the discipline;
- An ability to analyze a problem, and identify and define the computing requirements appropriate to its solution;
- An ability to design, implement and evaluate a computer-based system, process, component, or program to meet desired needs;
- An ability to function effectively on teams to accomplish a common goal;
- An understanding of professional, ethical, legal, security, and social issues and responsibilities;
- An ability to communicate effectively with a range of audiences;
- An ability to analyze the local and global impact of computing on individuals, organizations and society;
- A recognition of the need for, and an ability to engage in, continuing professional development;
- An ability to use current techniques, skills, and tools necessary for computing practices;
- An ability to apply mathematical foundations, algorithmic principles, and computer science theory in the modeling and design of computer-based systems in a way that demonstrates comprehension of the tradeoffs involved in design choices;
- An ability to apply design and development principles in the construction of software systems of varying complexity.

 - c. SCED 510 Secondary Methods in Curriculum (Spring Senior year).

Please note that students who are considering this pathway should work with their advisor to create a plan of study that allows these nine credits of graduate courses to be taken in the Junior and Senior years in addition to a minimum of 12 undergraduate credits per semester.

Environmental Science Concentration in Earth Science

- The Environmental Science concentration is dedicated to the study of the relationships between humans and their environments.
- You will become sensitive, articulate, and knowledgeable about increasingly complex environmental issues facing contemporary society.
- Course work in this concentration will provide the theoretical and practical background as well as the skills necessary to study environmental science from a wide range of perspectives.
- You must meet certain criteria and deadlines prior to enrollment in either GEOG 488 or GEOG 492.
- You must select 2 other members for your advisory committee in addition to your advisor from the faculty in participating departments. At least 1 member of the committee must be from Geography.

Summary of Requirements for Environmental Science Concentration in Earth Science

1. Introductory Level Courses: (13 hours)

GEOG 103/113	Physical Geography (GEP Group C)
GEOG 104/114	Human Geography (GEP Group D or F)
	or GEOG 110 World Regional Geography: Cultural Diversity (GEP Group D or F)
GEOG 275	Fundamentals of Geographic Data Handling (Tech. Fluency)
MATH 119	College Algebra (Core Skill 3) –or any other MATH 220 or above

2. Required Advanced Courses: (13 hours)

GEOG 380	Research Methods in Geography
GEOG 406	Management and Conservation of Natural Resources
GEOG 445	Biogeography
GEOG 472	Environmental Planning or GEOG 473 Environmental Law
GEOG 486	Earth Science Capstone

3. Required Supporting Science Sequence: (16 hours)

BIOL 149	General Biology I (GEP Group C)
BIOL 160	General Zoology
	or BIOL 161 General Botany
CHEM 201	General Chemistry I (GEP Group C)
CHEM 202	General Chemistry II

4. Electives: (24-25 hours)

Select two courses in each group:**

GROUP I Advanced Biology

BIOL 340	General Ecology
BIOL 406	Ornithology
BIOL 409	Plant Taxonomy or BIOL 405 Dendrology
BIOL 421	Sample Design and Analysis of Plant Communities
BIOL 422	Herpetology
BIOL 423	Mammalogy
BIOL 430	Introductory Limnology

GROUP II Advanced Techniques

GEOG 310	Fundamentals of Cartography
GEOG 317	Principles of Geographic Information Science
GEOG 413	Remote Sensing - Image Interpretation
GEOG 420	Topics in the Mapping and Geospatial Sciences
GEOG 433	Surveying and Field Techniques

GROUP III Advanced Physical Geography

GEOG 335	Oceanography
GEOG 340	Soil: Genesis, Nature and Characterization
GEOG 405	Physical Climatology
GEOG 430	Surface Water Hydrology
GEOG 431	Quaternary Environments
GEOG 432	Groundwater Hydrology
GEOG 460	Natural Hazards in the Physical Environment
GEOG 469	Principles of Atmospheric Science

GROUP IV Advanced Human Systems

Take two of the following from two different disciplines:

CMST 365	Environmental Communication
ECON 410	Resource and Environmental Economics
ENGL 440	Literature of the Environment
GEOG 300	Economic Geography
GEOG 330	Global Climate Change
GEOG 360	Food Systems
GEOG 410	Locational Analysis
GEOG 425	Geography of Transportation
GEOG 452	Rural Geography
HIST 409	World Environmental History
HIST 418	Native Peoples of the Americas
HIST 420	Green: Environment and Economy in US History
PHIL 315	Philosophy and the Environment
POSC 450	Environmental Public Policy
PSYC 488	Environmental Psychology
RECR 394	Environmental Interpretation
RECR 443	Issues & Risk Management in Recreation & Parks
RECR 448	Principles of Ecotourism

SOCI 345 Sociology of the Environment

SUST 455 Seminar in Sustainability Studies

**some of these courses may require additional prerequisite course work.

Engineering

MAJOR

Professors: Deng-Luzader, G. Latta, Plitnik, O. Soysal, Wang

Associate Professors: Abdo, Eltayeb, E. Moore (Chair)

Assistant Professors: Liu, Speights, Wondmagegn

Mission Statement

The mission of the FSU Bachelor of Science in Engineering program is to provide excellent undergraduate education in engineering, to establish close partnership with and facilitate technology transfers to industry and government, to contribute to economic development within the state of Maryland, specifically in the Western Maryland region, and to provide related service to the campus community and community at large.

Program Educational Objectives

Within the first few years following graduation, alumni of the FSU BS in Engineering program will:

- Act as valuable employees or professionals in a broad range of career paths centered on Materials or Electrical Engineering skills.
- Apply their broader analytical skill set by finding innovative solutions to real-world problems and creating new knowledge, ideas, and products.
- Show professionalism and an ability to think globally through constructive teamwork, group problem solving, and effective communication with others not of an engineering background.
- Demonstrate ethical decision-making, which will lead to increased levels of responsibility and leadership positions.
- Engage in life-long learning by keeping their technical knowledge and understanding of contemporary issues up-to-date and taking advantage of professional development opportunities.

Program Outcomes

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives

6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

B.S. in Engineering at AACC and Cecil College

The B.S. in Engineering is also offered at the Anne Arundel Community College Regional Higher Education Center at Arundel Mills in collaboration with AACC (electrical engineering) and at Cecil College (materials engineering). Students with an associate degree in engineering may complete the bachelor's degree through onsite, interactive video, and online courses offered at these sites. See following pages.

Program Requirements

Hours Required in Engineering:	56-58	57
Hours Required in Other Disciplines:	31	31
Total Hours Required:	87-89	88

Requirements for Major in Engineering

1. Core Courses (42 hours)

- CHEM 201 General Chemistry I (GEP Group C)
- ENES 100 Introduction to Engineering Design
- ENES 401 Fundamentals of Energy Engineering
- ENME 271 Numerical Methods in Mechanical Engineering
- ENME 272 Introduction to Computer-Aided Design
- MATH 236 Calculus I (Core Skill 3)*
- MATH 237 Calculus II*
- MATH 238 Calculus III*
- MATH 432 Differential Equations*
- PHYS 261 Principles of Physics I – Mechanics, Waves and Oscillations (GEP Group C)*
- PHYS 262 Principles of Physics II – Thermodynamics, Electricity and Magnetism*
- PHYS 263 Principles of Physics III – Light and Modern Physics*

*All majors must earn a C or better in MATH 236, MATH 237, MATH 238, MATH 432, PHYS 261, PHYS 262, and PHYS 263.

2. Area of Concentration (45-47 hours)

Majors must choose to concentrate in one of the following areas:

Electrical Engineering (45-47 hours)

- ENEE 204 Basic Circuit Theory
- ENEE 206 Fund. Digital and Electric Circuits Lab
- ENEE 244 Digital Logic Design
- ENEE 303 Analog and Digital Electronics
- ENEE 307 Electronic Circuits Lab
- ENEE 322 Signal and System Theory
- ENEE 350 Computer Organization
- ENEE 380 Electromagnetic Theory

- ENEE 445 Introduction to Communication Systems
- ENEE 408 Capstone Design Project for Electrical Engineers
- ENEE 439 Topics in Signal Processing
- ENEE 475 Power Electronics
- ENEE 481 Project Development in Electrical Engineering
- ENES 310 Mechatronic and Robotic Design

Two electives from any 300- or 400-level ENEE, ENES or ENME course or CHEM 304

Materials Engineering (46 hours)

- ENES 102 Statics
- ENES 220 Mechanics of Materials
- ENES 221 Dynamics
- ENME 232 Thermodynamics
- ENME 331 Fluid Mechanics
- ENME 332 Transfer Processes
- ENME 350 Electronics and Instrumentation I
- ENME 351 Electronics and Instrumentation II
- ENME 382 Engineering Materials and Manufacturing Processes
- ENME 405 Fundamentals of Materials Engineering
- ENME 410 Capstone Design Project for Materials Engineering
- ENME 425 Microfabrication
- ENME 481 Project Development in Materials Engineering

Two electives from any 300- or 400-level ENEE, ENES, or ENME course or CHEM 304

Engineering at AACC

BS PROGRAM

LOCATED AT AACC AT ARUNDEL MILLS, A REGIONAL HIGHER EDUCATION CENTER

Coordinator: Eric Moore, Associate Professor

About the Program

- Accessible
- Earn your B.S. degree close to home
- Affordable
- FSU has one of the lowest tuition rates in the state of Maryland
- Transfer-friendly
- Credits taken at community college applied toward the B.S. degree
- FSU offers a Bachelor of Science in Engineering degree with an electrical engineering concentration at Anne Arundel Community College at Arundel Mills Regional Higher Education Center.
- This program is designed to meet the needs of modern industry and is open to community college graduates who have completed an A.S. or A.S.E. degree in Engineering.
- FSU offers courses on site and via distance learning for students at the Arundel Mills Center to complete the Bachelor of Science requirements.

Program Educational Objectives

Within the first few years following graduation, alumni of the B.S. in Engineering program at AACC will:

- Act as valuable employees or professionals in a broad range of career paths centered on Electrical Engineering skills.
- Apply their broader analytical skill set by finding innovative solutions to real-world problems and creating new knowledge, ideas, and products.
- Show professionalism and an ability to think globally through constructive teamwork, group problem solving, and effective communication with others not of an engineering background.
- Demonstrate ethical decision-making, which will lead to increased levels of responsibility and leadership positions.
- Engage in life-long learning by keeping their technical knowledge and understanding of contemporary issues up-to-date and taking advantage of professional development opportunities.

6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Program Requirements

To earn the Bachelor of Science in Engineering from FSU, students must complete a total of 120 credit hours of coursework.

Students entering this program must have an associate's degree in engineering from a community college and are expected to have completed:

1. 32-33 credits of general education, to include Freshman Composition, 3 credits in the arts, 6 credits in the humanities and 6 credits in social sciences
2. 3 additional credits (any category)
3. Calculus 1, 2 and 3 and Differential Equations
4. Calculus-based physics sequence
5. General Chemistry

6. Engineering coursework, to include Introduction to Engineering Design, Circuit Theory, Programming in C and Digital Logic Design

Once admitted into the program at AACC at Arundel Mills, students will complete a minimum of 50 additional credits of engineering and upper-division general education coursework. The majority of the upper-division courses will be taught on site at AACC at Arundel Mills Regional Higher Education Center. Several will be delivered via interactive video or through online learning.

Mechanical Engineering

COLLABORATIVE PROGRAM

MAJOR

Coordinator: Julie Wang, Department of Physics and Engineering

- A collaborative program between Frostburg State University and the University of Maryland, College Park, which allows students to remain on the Frostburg campus for four years while receiving a B.S. degree in mechanical engineering from UMCP.
- This program is accredited by ABET.

- The degree awarded to students completing the program is a B.S. from UMCP.
- During the first-year and sophomore years, you will be enrolled as a pre-engineering major. You will complete general education and engineering science courses taught by faculty on-site at FSU. FSU tuition rates will apply.
- After completing 45 credits of designated course work, you must apply for admission to College Park's Clark School of Engineering. After meeting UMCP's admissions standards, you will be accepted into the second half of the program as an engineering major. UMCP's tuition rates will apply for this part of the program. You must reapply for financial aid and scholarships through UMCP.
- Upper-level engineering courses will be delivered over interactive video from College Park to FSU. All laboratory and design courses will be taught by FSU faculty.
- To be granted advanced placement credit for a course, you must meet UMCP's minimum requirements. These differ from FSU's standards, with a higher score required by UMCP in a number of areas. Please consult the Engineering Coordinator to verify AP scores required to receive credit.

Mission Statement

The mission of the FSU Collaborative Mechanical Engineering Program is to provide excellent undergraduate education in mechanical engineering; to establish close partnership with and provide technical knowledge to industry, government and local business; to contribute to economic development within the state of Maryland, specifically in the Western Maryland region; and to provide related services to the campus community and community at large.

Program Educational Objectives

A few years from graduation, the graduates of the Collaborative Mechanical Engineering Program will:

1. Act as valuable employees or professionals in a broad range of career paths centered on Mechanical Engineering skills.
2. Apply their broader analytical skill set through finding innovative solutions to real-world problems and creating new knowledge, ideas, and products.
3. Show professionalism and an ability to think globally through constructive teamwork, group problem solving, and effective communication with others not of an engineering background.
4. Demonstrate ethical decision-making, which will lead to increased levels of responsibility and leadership positions.
5. Engage in life-long learning by keeping their technical knowledge and understanding of contemporary issues up-to-date and taking advantage of professional development opportunities.

Program Outcomes

The students of the Mechanical Engineering Collaborative Program will demonstrate throughout the curriculum:

1. An ability to identify, formulate and solve complex engineering problems by applying principles of engineering, science and mathematics

2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety and welfare, as well as global, cultural, social, environmental and economic factors
3. An ability to communicate effectively with a range of audiences
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts
5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks and meet objectives
6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Program Requirements

	MAJOR
Hours Required in Engineering:	68
Hours Required in Other Departments:	40
Total Hours Required:	108*

*Note: A minimum of 120 credits and satisfactory completion of all department, college and university requirements must be satisfied to earn a degree from UMCP.

Summary of UMCP's General Education Program Requirements

- The University of Maryland will accept completion of FSU's General Education Program.
- Minimum of 40 credit hours required

Summary of Pre-Engineering Requirements

1. Engineering Science Courses (12 hours)

ENES 100	Introduction to Engineering Design
ENES 102	Statics
ENES 220	Mechanics of Materials
ENES 221	Dynamics

2. Required Courses in Other Departments

(40 hours)

CHEM 133	General Chemistry for Engineers (preferred) or CHEM 202 General Chemistry II
CHEM 201	General Chemistry I (Meets GEP requirement)
ENGL 101	Freshman Composition (Meets GEP requirement)
ENGL 339	Scientific Writing or ENGL 338 Technical Writing (Meets GEP requirement)
MATH 236	Calculus I (Meets GEP requirement)
MATH 237	Calculus II
MATH 238	Calculus III
MATH 432	Differential Equations
PHYS 261	Principles of Physics I: Mechanics, Waves and Oscillations (Meets GEP requirement)
PHYS 262	Principles of Physics II: Thermodynamics, Electricity and Magnetism

PHYS 263 Principles of Physics III: Light and Modern Physics

After completing 45 credits of designated course work, you must apply for admission to College Park's Clark School of Engineering.

ADMISSION CRITERIA

To be eligible for fall 2019 admission to the Collaborative Program at UMD, students must meet the following criteria by the end of the spring 2019 semester:

- A minimum cumulative GPA of 3.0 on all college level coursework
- Completion of MATH 237 (Calc II) with a minimum grade of B or better
- Completion of PHYS 261 (Physics I) with a minimum grade of B or better
- Completion of CHEM 133 or CHEM 202 (Chemistry for Engineers or Chemistry II) with a minimum grade of C or better

Admission notes:

- Only one of the above listed "gateway" courses may be repeated to earn the required grade, and that course may only be repeated once.
- Students with more than 60 credits may still apply. Regardless of your credit level at transfer, this program is designed to be completed in a minimum of three full-time fall/spring semesters.
- Students on F-1 or J-1 Visas are not eligible for this program.

Summary of Engineering Requirements

1. Required Engineering Courses (41 hours)

ENME 232 Thermodynamics
 ENME 271 Numerical Methods in Mechanical Engineering (*will satisfy MATH 206*)
 ENME 272 Introduction to Computer-Aided Design
 ENME 331 Fluid Mechanics
 ENME 332 Transfer Processes
 ENME 350 Electronics and Instrumentation I
 ENME 351 Electronics and Instrumentation II
 ENME 361 Vibration, Controls and Optimization I
 ENME 371 Product Engineering and Manufacturing
 ENME 382 Engineering Materials and Manufacturing Processes
 ENME 392 Statistical Methods for Product and Process Development
 ENME 400 Machine Design
 ENME 462 Vibration, Controls and Optimization II
 ENME 472 Integrated Product and Process Development (*Capstone*)

ENGL 371 Literature of the Middle Ages
 ENGL 372 Early Modern Literature
 ENGL 373 Literature of the Enlightenment

Take one of the following:

- ENGL 374 Literature of the Age of Revolution
 ENGL 375 Romanticism
 ENGL 376 Realism and Naturalism

Take one of the following:

- ENGL 377 Modernism
 ENGL 378 Postmodernism
 ENGL 379 Postcolonial Literature

4. Specialization Course: (3 hours)

Take one of the following:

- ENGL 431 World Drama I
 ENGL 432 World Drama II
 ENGL 440 Literature of the Environment
 ENGL 450 Women and Literature
 ENGL 490 Selected Topics in English

5. Electives: (6 hours)

Students may count a maximum of 3 hours of writing courses beyond ENGL 300 Critical Writing About Literature. Students may count one 200-level course

Requirements for Creative Writing Concentration

1. Major Core Curriculum: (15 hours – listed above)

2. Concentration Requirements: (24 hours)

- ENGL 334 Creative Writing: Fiction
 ENGL 335 Creative Writing: Poetry
 ENGL 460 Form and Theory of Fiction and Poetry
 ENGL 470 Senior Workshop

Criteria for electives: Students must take 6 hrs. of literature at the 300/400 level.

Requirements for Creative Writing Minor

1. Core (12 hours)

- ENGL 334 Creative Writing: Fiction
 ENGL 335 Creative Writing: Poetry
 ENGL 460 Form and Theory of Fiction and Poetry
 ENGL 434 Advanced Fiction Writing OR ENGL 435 Advanced Poetry Writing

2. Electives (9 hours)

Choose from the following

- ENGL 100 Publication Practicum (1 hour; repeatable to 4 credits)
 ENGL 360 Creative Nonfiction
 ENGL 377 Modernism OR ENGL 378 Postmodernism
 ENGL 402 Editing and Production
 ENGL 430 Composing Processes
 ENGL 434 Advanced Fiction Writing (if not taken for core)
 ENGL 435 Advanced Poetry Writing (if not taken for core)
 THEA 350 Playwriting
 Relevant special topics courses are also welcomed as electives as approved by the coordinator.

Requirements for Certification in Teaching Secondary English

If you wish to complete a Maryland State-approved program in teaching English, you must complete the BA/BS in English: Literature Concentration:

1. Major Core Curriculum (15 hours – listed above)

2. Certification Requirements: (27 hours)

Complete the requirements for the Literature Concentration and take ENGL 276 Adolescent Literature and ENGL 430 The Composing Processes as your required electives. If these courses are not taken as the required electives in the Literature Concentration, you will need to take them as additional six credits.

- Select the Teacher Certification Option. See the Secondary Education Coordinator for details.
- Meet the phase admission requirements summarized in the Educational Professions section.
- Complete the professional education sequence described in Education: Secondary Programs.

3. Educational Professions Requirements: (37 hours)

Students must meet the phase admissions requirements summarized in the Educational Professions section.

Summary of Requirements for the Secondary Teacher Certification Option:

If you wish to complete a Maryland State-approved program in teaching English, you must:

Complete the BA/BS in English: Literature Concentration

- Take some additional coursework in English to qualify for Maryland State certification and to meet NCATE accreditation standards: ENGL 276, ENGL 416 and ENGL 430.
- Meet the phase admission requirements summarized in the Educational Professions section.
- Declare a second major in Secondary Teacher Education. See the Secondary Teacher Education Program Coordinator for details.
- Complete the professional education sequence described in Education: Secondary Programs

If you wish to pursue certification for teaching at the secondary level, through a Master of Arts in Teaching degree, you should complete the undergraduate English major and then the Master of Arts in Teaching program. In the English major, you should choose the Literature Concentration. In addition, you must complete the following courses:

ENGL 276 Adolescent Literature

ENGL 306 English Language Structure and Development

ENGL 430 The Composing Processes

If the courses listed above are not completed on the undergraduate level, candidates for the Master of Arts in Teaching program may be required to take additional coursework to meet content standards. It is highly recommended that candidates take ENGL 491 Practicum in the Teaching of Writing.

Requirements for Certification in Teaching Secondary English through the Master of Arts in Teaching Degree

If you wish to pursue certification for teaching at the secondary level through a Master of Arts in Teaching degree, you should complete the undergraduate English major and then the Master of Arts in Teaching program. In the English major, you should choose the Literature Concentration and take these courses as your electives:

ENGL 276 Adolescent Literature

ENGL 430 The Composing Processes

(If the courses listed above are not completed on the undergraduate level, as a candidate for the Master of Arts in Teaching program, you may be required to take additional coursework to meet content standards.)

1. Complete the Master of Arts in Teaching (graduate) program.

Professional Writing

EMPHASIS

Coordinator: Sydney Duncan, Professor, Department of English

- To be eligible for an emphasis, you must achieve at least a C in each writing course applied to emphasis.
- If you are majoring in English with a concentration in professional writing, you are not eligible for the emphasis.
- You cannot major in Professional Writing.

The emphasis in professional writing is open to degree-seeking students in any major and non-degree seeking members of the community who would like to strengthen writing skills.

Non-degree-seeking students must provide evidence of successful completion of no fewer than 42 college-level credits, including a first-year English course, passed with a grade of C or better.

Coordinator: Sunshine L. Brosi, Associate Professor, Department of Biology

Participating Faculty:

Professors: Fritz, Li (Biology), Precht

Associate Professors: Biser, (Chemistry), Brosi (Biology), Puthoff (Biology),
 Rogers Thomas (Sociology)

- Ethnobotany is an interdisciplinary major.
- You are encouraged to minor in related fields, including cultural anthropology, chemistry, geography, sociology, foreign language, biology and sustainability studies.
- A degree in Ethnobotany will prepare you for work in government and non-governmental organizations focused on resource management, conservation, and related areas where human communities and natural environments interact.

- You are encouraged to participate in summer internships with local and regional organizations.
- Students interested in professional and graduate degrees may need to take additional courses.
- You have the option to participate in research on medicinal plants of the Appalachian region through the Appalachian Center for Ethnobotanical Studies (ACES) a cooperative program with Frostburg State University, West Virginia University and the University of Maryland Biotechnology Institute.

Film Studies

MINOR

Coordinator: Dr. Kevin Kehrwald, Professor, Department of English

Participating Faculty: John Lombardi (Communication)

Professors: A. Duncan (English), Kehrwald (English), R. Smith (English)

Associate Professors: Knott (English), Raucci (English)

Assistant Professor: Danzi (Communication)

- The minor is open to students majoring in any field.
- You cannot major in film studies.

The goal of the film minor is to help you develop visual literacy. You will acquire the essential skills of critical thinking by learning to “read texts” in the most pervasive medium of contemporary culture – film.

You will:

1. Become a more critical viewer of film as a medium by learning to read, analyze, and interpret films
2. Recognize how cinematic techniques, such as camera movement, editing, and cinematography contribute to a film’s impressions

3. Become familiar with film language and terminology
4. Recognize film as a global medium of diverse cultural styles and voices
5. Become acquainted with a variety of aesthetic and cinematic movements
6. Recognize film as a vehicle for forming cultural values
7. Understand how cultural events and technologies have shaped (and continue to shape) film styles, genres, and narrative techniques
8. Understand the historical development of film as an art form

Foreign Languages & Literature

MAJOR

CONCENTRATION IN SPANISH

MINOR

Associate Professor: Sanchez

Assistant Professor: Cisneros

Lecturer: Hayatou

- At least half of the credit hours required in your major language (Spanish) must be taken at FSU.
- Foreign language majors who have courses transferred from a foreign institution at the 300 or 400 level must take at least one 300 or 400 level course at FSU after they return and prior to graduation.
- Only courses in which a grade of C or better is earned will count towards satisfaction of major or minor requirements.
- A minor in French is also offered.
- The department also offers course work in intercultural studies, literature in translation, and linguistics.
- Courses in Italian, Chinese and Japanese are offered as MDFL courses on an irregular basis.

If you have no experience in French or Spanish, you will have to begin your language study at the elementary level (FREN 101 or SPAN 101)

If you have studied French or Spanish previously, you must take the online placement exam. Please go to the departmental web page to take the online exam.

Accelerated Placement

If the results of the placement exam determine that you are eligible for accelerated placement, and you complete a course above the 101-level with a grade of C or better, you may apply to the department for academic credit for the courses waived, as summarized below.

- at the 102 level, you will be eligible to receive 3 additional credits.
- at the 211 level, you will be eligible to receive 6 additional credits.
- at the 212 level, you will be eligible to receive 9 additional credits.
- at the 250 level, you will be eligible to receive 12 additional credits.
- at the 300 level, you will be eligible to receive 15 additional credits.

There is a \$10.00 fee for each hour of credit received through accelerated placement.

- Select one additional COSC or ITEC course not to include COSC 101 or ITEC 312 (3-4 hours).

5. Recommendations:*

Students are encouraged to select additional course work depending on their specific area of interest such as:

- MATH 220 & 221 Calculus I and II
- COSC 240 Computer Science I (4 hours)
- COSC 241 Computer Science II (4 hours)
- COSC 330 Web Design and Development (3 hours)
- ITEC 315 Programming (3 hours)
- ITEC 345 Database Systems I (3 hours)

*Some of these courses may have prerequisites.

If you are interested in teaching geography ...

- Students wishing to teach geography at the secondary level (middle and high school) must first obtain a degree in geography and then complete the Master of Arts in Teaching (MAT) program in the College of Education. Refer to the Graduate Catalog for information on the MAT program and the application process.

Health Science

MAJOR

Coordinator: Karen L. Keller, Associate Professor, Department of Biology

- The interdisciplinary B.S. in Health Science provides an alternative to traditional bachelor degrees for students interested in a health-related field and will prepare students that are qualified to enter a variety of graduate and professional programs in the health sciences.
- Completion of the program will provide students with a strong background in the natural, social and health sciences while allowing a wide choice of elective courses to suit individual career and graduate/professional school requirements.

Participating Departments:

Biology
 Chemistry
 Kinesiology and Recreation
 Mathematics
 Nursing
 Philosophy
 Psychology
 Physics and Engineering
 Sociology

Health Science majors should continually examine the catalog of the institution(s) they plan to attend to complete the courses required by the professional school(s), to fulfill additional entrance expectations and be aware of any changes in the requirements. The student should also communicate this information to his or her adviser.

Law School Preparation

PRE-PROFESSIONAL PROGRAM

Pre-law Advisor: Scott Johnson, Professor, Department of Political Science

- While you cannot major or minor in law school preparation, there are law-related courses offered at Frostburg State University.
- Prospective law students should carefully examine the catalog of the law school they wish to attend in order to determine the test requirements for that school.

The traditional preparatory majors for entering law schools have been political science, history, English, philosophy, or sociology. Most law schools prefer that

undergraduates interested in admission to law school *not* follow a prescribed “pre-law” curriculum. Rather, they prefer that students pursue a broad, *liberal* education.

Almost all professional law schools require applicants to take the Law School Aptitude Test. In some cases, the Graduate Record Exam may also be required. Information regarding the L.S.A.T. may be obtained from this university’s pre-law advisor.

Information regarding the G.R.E. may be obtained from University Counseling and Psychological Services.

Prospective law students should strive to acquire exceptional ability in communication; gain critical understanding of human values and institutions; and develop understanding in the use of various types of reasoning: deductive, inductive, and analogous. Students should develop the ability to think creatively and to analyze critically. They should also learn how to recognize, differentiate, and organize facts according to their relevance to particular issues.

Suggested Elective Courses for Law School Preparation

The following courses may be especially helpful in achieving the qualities stated above. Students are advised to choose elective courses from this list:

BLAW 291	Legal Environment of Business
CMST 122	Intro. to Public Speaking
CMST 225	Interviewing
CMST 302	Argumentation & Advocacy
CMST 322	Presentational Communication
CMST 451	Seminar in Communication Theory
ECON 307	Govt. and Business
ECON 404	Public Finance
ENGL 330	Business Writing
ENGL 334	Creative Writing
ENGL 336	Journalistic Writing
ENGL 338	Technical Writing
GEOG 450	Urban Planning
GEOG 473	Environmental Law
HIST 103,104	History of U.S. I, II
PHIL 100	Critical Thinking
PHIL 102/112	Contemporary Ethical Problems
PHIL 410	Philosophy of Law
POSC 324	Criminal Justice Systems
POSC 422,423	American Constitutional Law I, II
SOCI 200	Social Problems
SOCI 443	The Amer. Correctional System

Law School Admission Test (LSAT) Preparation Course

This non-credit course is designed to help students prepare for the Law School Admission Test (LSAT), a prerequisite for all students seeking admission to law school. The course is offered twice during the academic year in preparation for the October and June tests. There is a fee for the course that covers the costs of instruction and a textbook that contains more than 500 questions and problems, including analytical exercises, practice tests, and a full-length home-study exam. The course covers each of the main sections of the LSAT in depth: application of rules, reading comprehension, logical games, logical reasoning, and essay writing. For each section, students are exposed to a wide variety of sample questions, which are analyzed in class, and various suggestions and methods are presented in lectures for approaching the types of questions in each section.

Graduates of the LSAT prep course have gained admission to such law schools as The Georgetown University Law Center, Duquesne University School of Law, The University of Baltimore School of Law, The West Virginia University College of Law,

Appalachian School of Law, Ohio Northern University College of Law, The Thomas M. Cooley Law School, and Liberty College of Law.

For further information, contact Dr. Scott Johnson, pre-law advisor and instructor of the course.

- All students entering or re-entering the major are required to pass an audition in their primary performance area before being accepted as a music major. Students changing their primary performance area must re-audition before being re-accepted as a music major.
- You must choose a concentration, a track, the teaching certification option or the option in music education.
- Only courses in which you earn a C or better will count towards satisfaction of requirements for the major and the minor.
- MUSC/MUSA courses in which you earn a grade of C or better will count toward satisfaction of requirements for the major and minor. Concentrations for the major involving minors or coursework in other departments shall abide by the grade requirements for those programs.

Requirements for Option in Music Education

This option is designed for students to complete a degree in Music with an Option in Music Education. It does not require completion of initial certification or the MAT. For students who wish to complete the MAT or pursue careers in music education that do not require certification, they should follow this Option. All students who complete this Undergraduate Option in Music Education will receive a Bachelor of Science in Music upon successful completion of the requirements outlined below.

Entrance Requirements for those students opting to complete the Master of Arts in Teaching (MAT):

After completion of the sophomore evaluation, apply for provisional admission to the MAT program. Students applying to the MAT must meet all entry requirements as set forth by the College of Education MAT program. A transcript review will be completed prior to entrance into the MAT after completion of the Undergraduate Degree. Any deficiencies must be complete before full admission to the MAT program. Students in this Option will complete the Bachelor of Science in Music and complete all of the prerequisites to enter the Master of Arts in Teaching to complete their certification.

Please note, students taking this option should work with their advisor to create a plan of study that allows these 9 credits of graduate courses to be taken through-out the Junior and Senior years in addition to a minimum of 12 undergraduate credits per semester. Please note that winter session and summer courses may affect your ability to meet these requirements.

1. Core Courses: (49 hours)

Nursing

RN TO BSN COMPLETION PROGRAM COLLABORATIVE TRANSFER PROGRAM

MAJOR

Coordinator: Heather A. Gable (Chair), Department of Nursing

- The RN to BSN Completion Program does not lead to licensure as a registered nurse.
- If you are interested in a career in nursing but are not licensed as a registered nurse, or enrolled in a program leading to licensure, you should follow the pre-professional program in Nursing Preparation described with the Health Science Pre-Professional programs in this catalog to earn admission to an initial licensure program.
- You cannot minor in nursing.
- You must meet all requirements for the Bachelor of Science listed in this catalog.

The RN to BSN Program is based on the American Association of Colleges of Nursing's proposed *Essentials of Baccalaureate Nursing Education*. The program is approved by the Maryland Board of Nursing, the Maryland Higher Education Commission and the Commission on Collegiate Nursing Education (CCNE), and meets the requirements of the Maryland statewide nursing education articulation agreement.

The RN to BSN curriculum is designed to increase the registered nurse's knowledge and skills in the areas of leadership, quality improvement, evidence-based nursing practice, nursing informatics, population-focused health promotion and disease prevention, interdisciplinary collaboration and professionalism. The program will prepare nurses to assume roles in leadership, complex clinical care coordination and community/public health, and serves as the academic foundation for graduate study.

The program is open to all registered nurses who meet the program admissions criteria, including an active, unencumbered RN license from within the United States. The program builds on the elements of Associate Degree nursing education. Nursing students concurrently enrolled in an Associate Degree in Nursing (ADN) program at a community college who meet the admission criteria (with the exception of RN licensure) are eligible to take RN-BSN courses at the discretion of the assigned advisor prior to licensure. Courses are delivered in a part-time, online format to maximize scheduling flexibility and maintain the student-faculty connection that is essential to academic success. Once the student begins the RN-BSN program, he or she will have five years to complete the degree requirements.

Program Goal

The RN to BSN Program prepares the registered nurse to be a professional health care practitioner who provides compassionate care that is based on scientific evidence and who serves as the link between the patient (individual, family, community or population) and the health care environment across the lifespan.

Program Objectives

The RN to BSN Program prepares the graduate to:

- Utilize critical thinking and creativity to address professional practice and patient care issues.
- Apply leadership concepts and collaborative strategies to the process of nursing care delivery.
- Utilize quality improvement and safety management principles in clinical nursing practice.
- Identify and understand basic elements of nursing research.

- Integrate scientific evidence with clinical judgment and patient preference to improve patient outcomes.
- Safely use information technology to improve patient care.
- Describe the ethical, legal, political and financial influences on the delivery of patient care.
- Demonstrate interpersonal communication skills and collaborative strategies that support the delivery of interdisciplinary, patient-centered care.
- Provide evidenced-based, preventative health care to families, communities and vulnerable populations in community-based settings.
- Demonstrate the knowledge, skills and attributes of professional nursing practice.

Nursing

COLLABORATIVE BACHELOR OF SCIENCE

Coordinator: Kara Platt, Assistant Professor, Department of Nursing

- This is a dual enrollment option between FSU and Allegany College of Maryland (ACM).
- This option is for students that are not local to Allegany County or surrounding counties. Local students can apply through ACM and then enter dual enrollment through an Associate to Bachelor's agreement.

- A cohort of 10 students will be accepted every spring semester into ACM's Nursing Program.
- This program will result in completion of an associate degree in nursing from ACM and a Bachelor of Science in Nursing from FSU.
- Students must attend classes on both FSU and ACM campuses.
- Students can gain nursing licensure after graduation from ACM and a successful passing score on the NCLEX exam.

The Collaborative Bachelor of Science in Nursing Option is a pathway for current FSU students who do not have permanent residence within Allegany County or surrounding counties. This is a dual enrollment pathway that gives FSU students the opportunity to earn a Bachelor of Science in Nursing degree. Students will take prerequisite and general education courses at FSU for two years then apply for and enter a dual enrollment with ACM for two years. After successful completion, students will graduate with an associate degree in nursing from ACM and then the following semester graduate with their Bachelor of Science in Nursing from FSU.

If you are interested in teaching physics ...

Students wishing to teach physics at the secondary school level (middle and high school) can obtain both a Bachelor of Science in Physics and a Master of Arts in Teaching – Secondary (MATS) in five years through the following pathway offered by

the MATS program. This pathway allows students to take up to nine credits of required graduate courses while completing their undergraduate program in physics. These nine graduate credits will be used as electives toward their undergraduate degree as well as the requirements of the MATS.

Students interested in this pathway should:

1. Discuss the MATS pathway option with their first-year advisor.
2. Meet with the MATS Coordinator as a first-year or sophomore.
3. Apply to the MATS program in the Spring of their sophomore year (February 1 application deadline).
4. Once conditionally admitted (a requirement for the following graduate courses to count as electives in the undergraduate program as well as in the MATS program) take:
 - a. REED 517 Reading in the Content Area (Fall or Spring of Junior or Senior year).
 - b. SPED 551 Adapting Instruction in Diverse Classrooms (Fall Senior year).
 - c. SCED 510 Secondary Methods in Curriculum (Spring Senior year).

Please note that students who are considering this pathway should work with their advisor to create a plan of study that allows these nine credits of graduate courses to be taken in the Junior and Senior years in addition to a minimum of 12 undergraduate credits per semester.

Social Work

MAJOR

Professors: Russell (Chair)

Associate Professor: Hartsock

Assistant Professor: Lean

- Since the Social Work curriculum is highly sequential in design, you are encouraged to meet with the department chair as early as possible to discuss declaring your major in social work.
- Only courses in which a grade of C or better is earned will count toward satisfaction of major requirements.
- Academic credit is not given for life or work experiences.
- The Social Work program has a competitive admissions process. Department faculty reserve the right to select those candidates who demonstrate the greatest potential for developing as professional social workers.
- Students with a degree in social work are eligible to earn Maryland State certification as addiction counselors. Several social work courses count towards the requirements. See the Addictions Counselor Preparation section of this catalog.

The major in Social Work is designed to prepare you for generalist practice. It is built upon a liberal arts foundation and provides you with the knowledge, values, and skills needed to help individuals, families, groups, organizations and communities.

Content in the major forms the foundation for professional practice. The curriculum covers values and ethics, diversity, social and economic justice, populations-at-risk, human behavior and the social environment, social welfare policy and services, social work practice, research and field practicum. All students are required to complete a full-time internship which constitutes the last semester of the senior year.

Graduates with a major in Social Work may begin professional practice in a variety of fields including mental health, aging, family and children's services, health care, addictions, juvenile and adult corrections, developmental disabilities, and community planning and development.

The Social Work program is accredited by the Council on Social Work Education (CSWE). Graduates of the program are eligible to apply to take state social work licensure exams at the baccalaureate level and to compete for employment positions where such a license is required. In addition, qualified graduates may also apply for advanced standing in graduate schools of social work which allows for completion of a Master's degree in less time than it would otherwise take. Contact the Department Chair for further information.

Requirements for Admission to the Social Work Program

Applicants must meet the following admissions requirements in order to be accepted into and complete the Social Work program.

Enrollment in the program is controlled by the number of slots available in the program at the time of admission. Admissions decisions are based on a competitive process. Application deadlines for all students, including transfer students, are established each semester by the program and publicly announced by the department.

Admission Requirements

1. Completion of at least 30 credit hours.

- Cumulative GPA of at least 2.3 (or recommendation of faculty member).
- Completion of a declaration of major form.
- Completion of an application to the Social Work program which includes a self statement and three letters of reference. Application packets are available from the department.
- Completion of SOWK 370 with a grade of C or better.
- Approval of the Social Work Department Admissions Committee (which may require a personal interview with the Social Work faculty). The Admissions Committee may award special provisional admission.

Graduation Requirements

- Completion of SOWK 492 (Capstone) with a grade of C or better and SOWK 495 with a grade of P.
- Cumulative GPA of at least 2.3 both overall and in courses required for the major.
- Meet program performance standards set by the department as measured by a standardized exit exam. Students who do not successfully meet these standards will be given additional opportunities to repeat the exam but only at their own expense.
- Completion of an exit interview with the Social Work faculty.

Dismissal Policy

The following constitute grounds for dismissal from the Social Work program:

- Inability to meet the academic requirements of the program
- Failure to address and correct deficiencies in competencies cited at last assessment review
- Violations of the National Association of Social Workers' Code of Ethics (Copies of the Code are available from the Department of Social Work.)
- Violations of FSU's Student Code of Conduct as outlined in the *Pathfinder* which would result in a referral to the University's Judicial System

A grievance procedure for protecting students' rights to due process is outlined in the Social Work Student Handbook available from the Department of Social Work.
