## FSU Celebrates Continued Positive Enrollment Trend in Fall Report

FSU is celebrating continued positive news in its efforts to build the University's overall enrollment. The total enrollment of 5,215 for fall 2008 is the highest since 2004, the number of students transferring to FSU continues to rise, and a significantly larger percentage of first-year students returned to FSU the following year – all accompanied by a slight increase in both average SAT scores and high school

grade point averages among those first-year students

In response to this information, FSU President Jonathan Gibraltar reiterated what he said when he joined the University System of Maryland more than two years ago: "Frostburg State University is a great story waiting to be told. Now that we are telling the story, parents and students are realizing what a unique and wonderful place this is. We

are becoming a university of first choice and not of last resort. Our students are better prepared, staying and completing their studies at FSU and graduating to enter either graduate programs or careers. The collective efforts of this entire university community have driven our enrollment growth and I am happy to say that this trend will continue."

In one very important benchmark,

retention, which is the number of first-time students who return for a second year, FSU has made significant strides: Compared to a 67 percent retention rate from 2007-08, 74 percent of first-year students returned for the 2008-09 school year.

In addition, the 1,043-student freshman class is among the largest in FSU's history. And the 371 students who transferred to FSU represent a 4 percent increase from the previous year's 356 students, which topped the previous year by 32 percent.

"There is a great deal of positive energy at Frostburg right now," said Wray Blair, associate vice president for Enrollment Management. "Students throughout Maryland and the mid-Atlantic region are seeking out FSU. We are excited by our new entering class and our increased retention rate for our continuing students. Along with our dedicated enrollment staff, the entire campus community has joined the recruitment effort. We often hear from students and parents that their visit to Frostburg was their best visit in their tour of college campuses. I believe that our commitment to each student is evident to those to visit FSU. We are now working hard at recruiting new students for 2009."

It was just two years ago that FSU hit its lowest overall enrollment in 17 years. At that point, an Enrollment Management Task Force composed of members from all across the University community was formed and given the task of identifying the reasons for the enrollment decline and taking the steps necessary to reverse the trend. Its work is continuing, with a special emphasis on solidifying procedures that will help prevent future dips in student population.

## Theatre

### Julie Andrews Hit Opens UT Main Stage

University Theatre will present the musical *Victor/Victoria* **Oct. 10 and 11 at 7:30 p.m., and again Oct. 16, 17 and 18 at 7:30 p.m., with matinee performances on Oct. 11 and 18 at 2 p.m.** in the PAC Drama Theatre.

Adapted from the musical film success, *Victor/Victoria* opened on Broadway in 1995 with Julie Andrews reprising her title role of a nearly starved singer in 1930s Paris, where males impersonating females is all the rage on stage. Desperate for a job, Victoria Grant disguises herself as a man who then impersonates a woman and becomes a singing sensation. All is well until she falls madly in love with a powerful gangster who is equally "disturbed" by his attraction to this apparent female impersonator. With musical numbers like "Le Jazz Hot," "You and Me," "Almost a Love Song," "Living in the Shadows" and "Crazy World," "*Victor/Victoria*" is gender-bending at its comic best! *Victor/Victoria's* book is by Blake Edwards with music by Henry Mancini. Additional musical material is by Frank Wildhorn and Leslie Bricusse is the lyricist.
