Renowned New Orleans Jazz Musicians Coming to FSU

Learn About Unique Sound of Big Easy at Free Ed Session

The world-renowned Preservation Hall Jazz Band, a group of talented and award-winning musicians who have dedicated their careers to preserving New Orleans jazz, will explore jazz's roots in the Big Easy during a special educational session at 4:30 p.m. Thursday, March 15, in Alice R. Manicur Assembly Hall at FSU's Lane University Center.

The program, a component of the CES Jazz Club's educational outreach initiatives, is free and open to the public. Using slides, video and musical examples, Preservation Hall Jazz Band will trace the complex history of New Orleans and its multi-layered cultures to explain the development and evolution of New Orleans jazz. At the heart of the presentation is the question, "Why is New Orleans the birthplace of jazz?" Ticket holders will also be able to enjoy the group's sounds later that day during a sold-out performance at 7:30 p.m. at FSU.

"This is a unique opportunity, for not only jazz aficionados but for our entire community, to gain insight into the development of jazz as well as the impact and influence the New Orleans region continues to have on this music," said Mary Jane Plummer, assistant director of FSU's Cultural Event Series. "But even more impressive is the fact that we will hear this directly from one of New Orleans' most prominent groups and world-renowned performers."

Founded in 1961 by Alan and Sandra Jaffe, who sought to perpetuate the traditional jazz music of New Orleans, the Preservation Hall Jazz Band has toured the world as emissaries of this unique American art form. The group was recently awarded the 2006 National

Medal of Arts, the nation's highest honor for artistic excellence, in recognition of its efforts to bring jazz to the masses.

Points of Pride

National Residence Hall Honorary's Program of the Month award for the month of February goes to the **staff of Cambridge Hall**. In recognition of the diverse community of the residence hall that houses the international students, the Cambridge Hall staff held a diversity dinner in the second floor lounge of Cambridge on Feb. 19. At a cost of less than \$100, Cambridge was able to get over 30 students to participate in the dinner itself.

Recipes ranged from Spanish and European to classic American and Argentinean food. The residents were informed of the backgrounds of all the food being served, and some residents even participated in cooking food for the dinner. Everyone in attendance agreed that the food was great, and the residents even asked the staff if they could do the program again. The residents were able to learn about some of the foods enjoyed in other countries and to hang out with the staff and other residents of Cambridge Hall. These are all factors that led to this very successful program, and we congratulate Cambridge Hall on their continued effort to provide enjoyable programming for the students within their residence hall.

Kim C. Appleton, Equal Employment Manager for the Defense Contract Management Agency's EEO Mission Support Center, was on campus recently to interview a group of students. She was so impressed with the students she met that she sent the following note to the Advising Center, which had arranged the session in conjunction with the Disability Support Services and Student Support Services offices: "I found the **students at**

Frostburg State University well-prepared and very engaging. Each arrived early or on time for their interview. They presented themselves in a professional manner and were ready to tell me about their unique qualifications." Ms. Appleton was here as a federal volunteer, interviewing students with disabilities for the Workforce Recruitment Program (WRP) of the Department of Labor. This was the second successful year for WRP interviewing FSU students for internships and careers in the federal sector. Based on Ms. Appleton's high evaluation of FSU's candidates, WRP will be returning again next February.

Summer in Mali, Africa

Drew University offers a unique summer study program (July 8-August 2) in Mali. The program allows a firsthand exploration of the culture and arts of Mali. Students are introduced to the ways in which art reflects the social, economic and cultural changes taking place in modern Africa. Application deadline is April 15.

Study in Shanghai

The Government of Shanghai is interested in increasing the number of foreign student studying in the area. There are over 20 institutions of higher education in the metropolitan area, and the goal is to have 60,000 international students in the city by 2010. To make this happen, the Government of Shanghai is awarding scholarships to international students in amounts from \$500 to \$5000.

Work in Africa during the summer

Tired of taking classes, but want a study abroad experience? Consider working with a non-governmental development organization in Africa for the summer. Visions in Action offers work experiences in several projects related to rural and community development. Additionally, they offer a program

that provides a small stipend for work in more difficult settings.

Earthwatch

Is it time to do something about the global environment? Earthwatch offers more than 100 opportunities for hands-on environmental work over the summer all over the world. Most will not generate academic credit, but will make you feel that you did your part.
