

Frostburg State University **2003** **Professional** **Achievements**

This booklet highlights the many professional achievements of Frostburg State University's diverse and talented faculty and staff during the past year. As you will see in the following pages, Frostburg's faculty members and professional staff contribute to their fields by producing original research, creative works and performances, and scholarship in teaching and learning. Faculty and staff also engage in widespread service to their fields and in the community. These professional activities enhance performance in the classroom and bolster the University's role in supporting regional, cultural and economic development activities. Please join me in celebrating the professional achievements of members of the Frostburg State University Community and thanking them for their efforts.

Stephen J. Simpson, Provost
Frostburg State University

The professional achievements listed are those reported by faculty and staff in response to surveys distributed during the spring of 2003 or in the StateLines campus publication during the 2002-2003 academic year. They encompass achievements during the period from June 1 of 2002 to May 30 of 2003. There may have been notable achievements that were unreported and thus unlisted.

This list has been compiled and published by the Division of University Advancement at Frostburg State University.

Messages from the Deans

Greetings. As I write this, I am flanked by unpacked boxes and stacks of information about Frostburg State University and the College of Business. This is my ninth day on the job! Having been a Dean for the previous nine years, I know what is in front of me, and I am absolutely excited to be here.

This is an excellent College of Business. It has good faculty, good students and good courses – that is a great formula for maintaining excellence. The College is currently pursuing “external validation” of this excellence via its effort to achieve AACSB accreditation. AACSB International is an organization that awards accreditation to business schools when the school meets certain specified standards. Our College has completed three years of the five-year process. Much work and many changes have already been made. With two more years, there are still more changes in store.

The College’s overarching goal is continuous improvement in the processes that generate learning. For example, our faculty teach in order to enhance students’ learning. The faculty conduct scholarly research to keep up with their rapidly changing disciplines (the body of knowledge in some disciplines doubles every three or four years). The faculty conduct various types of professional service work to assist the college and university, professional associations, and the business and governmental communities.

The future is bright. I am delighted to be associated with Frostburg State University and the College of Business. And, if I still had college-aged children, I would be delighted for them to attend this university.

Dr. Danny Arnold
Dean of the College of Business

The College of Education continues its focus on quality, diversity, technology and collaboration. In the area of quality, faculty and staff have moved forward with the accreditation process by submitting its programs in School Counseling and Special Education for State of Maryland approval. This year it will continue to work on its accreditation in Athletic Training, completing a five-year cycle of program improvement and development. With the completion of the hard work of accreditations and program approval, the faculty members are poised to increase their professional development efforts, a necessary foundation for teaching and service. The achievements of the faculty members represent hours of dedication to the testing and developing of the knowledge base in their fields. Furthermore, the service activities described within capture only a small number of the service actions that faculty members devote to their departments, college, university and community. The College of Education is indeed fortunate to have a large number of vibrant, productive and dedicated faculty members who are willing to look beyond their heavy teaching load to what they can contribute in professional development and service.

Dr. Susan Arisman
Dean of the College of Education

"It was the best of times, it was the worst of times." Charles Dickens seems to be speaking directly to us as we contemplate recent times in higher education. But even as we face continued and severe budgetary constraints at the state and national levels, the faculty of the College of Liberal Arts and Sciences has persevered. As you peruse this booklet you will be impressed with both the number and quality of faculty publications, presentations, performances, reviews and exhibits, as well as the many hours faculty have spent in academic, community and professional service. And this impressive list only touches on the many contributions, many unreported, made by our faculty. Confirmation of the quality of this work is provided by the many awards, funded grants, honors and other distinctions bestowed upon the faculty.

In addition to the individual achievements described here, the College of Liberal Arts and Sciences is delighted to announce the opening of two new facilities. Gunter Hall, a former dining hall and then home to the Appalachian Environmental

Laboratory, was renovated at a cost of \$6.5 million and now houses the Department of Geography and the Graduate Programs of the Department of Biology. The \$33 million Compton Science Center houses the Departments of Biology, Chemistry, Physics and Engineering. These state-of-the-art facilities provide an opportunity for both students and faculty to engage in more productive learning and research activities.

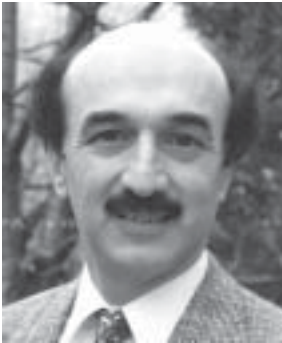

The College was pleased this year to announce the accreditation of its Collaborative Engineering Programs in both Mechanical and Electrical Engineering by the Accreditation Board for Engineering and Technology. This is the first time that ABET has accredited an undergraduate engineering program that relies in part on distance learning.

The College of Liberal Arts and Sciences will continue to place the highest priority on excellence in research, creative endeavor and scholarship. For it is through this process that faculty model for students the commitment to life-long learning. In the words of John Dunkle, a former president at Frostburg, *"Education continues through life and the process of education begun at college must not end there. To really live is to live an intellectual life. The college that awakens its students to the eternal quest for truth has not failed."*

Dr. Joseph M. Hoffman
Interim Dean, College of Liberal Arts and Sciences

Faculty Achievement Awards, 2003

Dr. Ahmad Tootoonchi
Business Management
Teaching

The excellent teaching of Dr. Tootoonchi is recognized widely by both students and faculty. Students benefit from his abundant knowledge and his informative and innovative teaching styles and also have great respect for him, which emanates from the consideration and courtesy he gives them. Since he joined the university in 1989, Dr. Tootoonchi has been recognized by the College of Business for being an outstanding teacher, and he is one of only two faculty members since 1983 to have received the Foundation

Award twice in the same category. Still, Dr. Tootoonchi continues to seek ways to enhance his teaching skills, most recently through the integration of technology. He regularly mentors students about career choices and supports them in developing outstanding research projects that have been submitted and presented at conferences.

Dr. Jason H. Edwards
Psychology
Academic Accomplishment

Since coming to FSU in 1997, Dr. Edwards has published 10 articles in refereed journals in the area of psychotherapeutic treatment of children and adolescents. His findings have had clear implications for the diagnosis, treatment and education of children and adolescents, and he has achieved a national reputation as an expert on numerous childhood psychological disorders, including attention-deficit hyperactivity disorder. He has made 25 conference presentations since joining the faculty. In addition, Dr.

Edwards is highly involved as a reviewer, serving on the editorial board for the Journal of Mental Health Counseling and for the American Psychological Association.

Faculty Achievement Awards, 2003

Dr. John J. O'Rorke
Political Science
University/Community Service

For over a decade, Dr. O'Rorke's commitment and vigilance in matters of governance have had a tremendous, positive impact on the lives of other faculty. In the four years he served as chair of Faculty Senate, Dr. O'Rorke demonstrated his dedication to ensuring that faculty had a voice in shared governance. He has worked tirelessly to see that those committee members entrusted with specific tasks completed them while continuing to update faculty on changes and important issues as they occurred. In addition, Dr. O'Rorke has shared his knowledge in

political science and public administration by advising the Student Government Association, coordinating the Model United Nations Security Council for area high school students, serving on the Frostburg Housing Authority and chairing numerous University committees.

The Faculty Achievement Awards are made possible by the gifts of Frostburg State University alumni and friends to the FSUF Annual Fund Campaign.

“Stirrings”

Following a year of research, creative residencies and scientific exploration, FSU Cultural Events Series presented the premiere of “Stirrings” by Pittsburgh’s Dance Alloy this past spring. Commissioned by Frostburg State University and supported by a grant from Pennsylvania Performing Arts on Tour (PennPAT), “Stirrings” is a bold collaboration linking artists from the diverse fields of creative writing, dance, music and the environment.

The project draws inspiration from the book *Stirring the Mud: On Swamps, Bogs, and Human Imagination*, a critically acclaimed collection of essays written by FSU English professor, NEA Literature Fellow and Wilson H. Elkins Professor Dr. Barbara Hurd.

The event received national coverage through The Associated Press, with stories running in newspapers as far away as Miami, Fla.

In addition to Hurd, a wide range of FSU people had a hand in bringing “Stirrings” to the stage: Richard Kagey and Conrad Maust of the Division of Performing Arts served as scenic designers; Physics and Engineering professor Dr. Greg Latta acted as an artistic advisor, including doing the initial recording of the libretto; William Mandicott, assistant vice president of Student and Community Involvement, served as project director; Mary Jane Plummer and Susan Manger, Cultural Events Series, and Visual Arts professor Dustin Davis helped manage the project; Dr. Philip Allen, Coordinator of Liberal Studies, served as moderator of the Artists’ Panel; and FSU graduate Marc Slanger videotaped the artistic and technical process.

Major grant support came from Pennsylvania Performing Arts on Tour (PennPAT) in a New Directions grant of \$15,000. Additional support came in a grant of \$7,000 from the Maryland State Arts Council. Additional collaboration and support came from the offices of the Provost, Center Stage and Cultural Events Series.

"Appropriate Expectations: Descriptive Analyses of Preschool Children's Performance on Measures of Early Literacy," Virginia State Reading Association conference, Roanoke, Va., March 2003

"Types of Talk and Types of Text: Preschool Teacher and Assistant Instructional Moves During Alliteration, Rhyme and Alphabet Text Read Alouds," National Reading Conference, Miami, Fla., December 2002

Dr. Don B. Weser, Chemistry

"Hawaii, Land of Mystery, Enchantment and Volcanoes," Faculty Lecture Series, Frostburg State University, September 2002.

"The Volcanoes and Ecology of Hawaii," Western Maryland Section of the American Chemical Society, April 2003.

Dr. Joyce E. Wheaton, Educational Professions

"Online Teaching: Expanding Educational Opportunities within a Graduate Reading Program," Southern Regional Association of Teacher Educators Conference, Hot Springs, Ark., October 2002.

Dr. G. Gerard Wojnar, Mathematics

"Intellectual Diversity: a Cornerstone of Critical Thinking," Frostburg State University WhyTech/Center for Teaching Excellence T.A.S.T.E. (Technologies & Strategies for Teaching Excellence), August 2002.

"Intellectual Diversity: a Paradigm for Learning," University System of Maryland Diversity Network Conference, Towson, Md., October 2002.

"Intellectual Diversity: a Paradigm for Learning – a Cornerstone of Critical Thinking," Frostburg State University Center for Teaching Excellence, March 2003.

"Intellectual Diversity: a Paradigm for Learning – a Cornerstone of Critical Thinking," Sixth Annual Lilly Conference-East on College and University Teaching: The Art and Craft of Teaching and Learning, Towson, Md., April 2003.

"Assembling the Conceptual Jigsaw Puzzle – Weaving a Fuller Fabric – Telling the Whole Story (Dare We?)," Frostburg State University 32nd Annual Mathematics Education Symposium: Little Picture – Big Picture: Perspectives on Mathematics, April 2003.

Workshops, Discussions Led

Dr. William L. Anderson, Business Management

"Increasing Productivity in Intellectual Contributions," led workshop, College of Business, Frostburg State University, May 2003.

Brad Barkley, English

Novel workshop, West Virginia Writers State Conference, June 2002.

Dr. Ronald E. Barry, Biology

"Permeability of Habitat to Movements by the Appalachian Cottontail, *Sylvilagus obscurus*," Annual Spring Meeting of the West Virginia Chapter of the Wildlife Society, University Forest, Morgantown, W.Va., March 2003.

"Ten Years of Population Data on Two Species of Hyrax in the Matobo National Park, Zimbabwe," 82nd Annual Meeting of the American Society of Mammalogists, Lake Charles, La., June 2002.

"Movements and Use of Habitat Edge by the Appalachian Cottontail, *Sylvilagus obscurus*," 82nd Annual Meeting of the American Society of Mammalogists, Lake Charles, La., June 2002.

Dr. D. Alan Bensley, Psychology

"Teaching and Assessing Critical Thinking in the Helping Professions," workshop presented at the 27th National Institute on Human Services in Rural Areas, Frostburg State University, July 2002.

Dr. Ann R. Bristow and Dr. Cindy Herzog, Psychology

"Counseling Lesbian, Gay and Bisexual Clients," with Shawn Smith, continuing education workshop, Western Maryland Area Health Education Center, September 2002.

Dr. Ann R. Bristow, Psychology

"Evaluating Addiction Research: Guiding Practice," 20 contact-hour course offered through the Institute of Alcoholism and Drug Abuse Studies of the Maryland Alcohol and Drug Abuse Administration, Salisbury State University, Salisbury, Md., June 2002.

Dr. Nicholas H. Clulee, History

"Student Performance on TASKS in Critical Thinking," Frostburg State University Critical Thinking Workshop, June 2002.

Dr. Patricia Coward, English/Center for Teaching Excellence

"More Writing/Less Grading," Frostburg State University T.A.S.T.E. Pre-Semester Conference, August 2002.

Dr. Spencer Deakin, Counseling and Psychological Services

International Association of Counseling Services Field Visitor Training Workshop presented at the Association of University and College Counseling Center Directors Conference, Honolulu, Hawaii, November 2002.

Dr. Jason H. Edwards, Psychology

"Treatment for Child ADHD: What Works?" Partners for Success/Family Support Network, Beall Elementary School, Frostburg, Md. May 2003.

Dr. Charles H. Hircock, Health, Physical Education and Recreation

"An Alternative Design for Professional Development Schools: The Regional Satellite Consortium Approach," panel discussion with representatives from Frostburg State University, Towson University, Salisbury University and University of Maryland College Park, Maryland Professional Development School Conference, Towson University, Towson, Md., March 2003.

"Incorporating Multiple Intelligences into Teaching Elementary School Physical Education," presented by Frostburg State University Health and Physical Education interns and moderated by C. Hircock, The Maryland Association for Health, Physical Education, Recreation and Dance State Conference, Towson University, Towson, Md., October 2002.

Dr. Judy Holmes, Educational Professions

"Communication Skills for Mentoring Interns," Professional Development School faculty, two sessions, March 2003.

"Peer Coaching," faculty at Mount Savage School, three sessions, January-February 2003.

"Stages in the Mentor-Intern Relationship," Professional Development School mentors in Allegany and Washington counties, October 2002.

Cherie Krug, Center for Volunteerism and National Service

"Grant and Foundation Writing and Application for 501c3," 10-week training designed and organized for the Western Maryland faith community, July-August 2002.

Dr. John Lombardi, Mass Communications, and **Lori Senese**, Institute for Service-Learning

"Managing Turf: Working Effectively with Neighborhood Organizations," with Kevin Gummer and Wendy McKenzie, 2003 Community Outreach Partnership Center Conference, San Diego, Calif., April 2003.

Dr. Paul R. Lyons, College of Business, and **Marion Leonard**, Business Management

"External Linkages and the College of Business: A Workshop," Southeast Institute for Operations Research and the Management Sciences, Myrtle Beach, S.C., October 2002.

Dr. Thomas A Mappes, Philosophy

"Persistent Vegetative State, Prospective Thinking and Advance Directives," Western Maryland Health System, Memorial Hospital Campus, Cumberland, Md., May 2003.

Dr. Susan W. Mills, Music

"Traditional Choral Music of South Africa," Baltimore City Schools Music In-Service, August 2003.

"Multicultural Music Education," Summer Music Education Institute, Frostburg State University, July 2002.

Dr. Shivaji Prasad, Geography

"Remote Sensing – Image Processing and Transformation Techniques," chaired workshop at Association of American Geographers Annual Conference, New Orleans, La., March 2003.

MaryJo A. Price, Ort Library

"Genealogy Tutorials – Basic and Advanced (Web Searching and Bibliographic Formats)," Genealogical Society of Allegany County, Md., April and June 2002.
