

June 24, 2020

Good afternoon,

This is the first of the weekly updates I promised, which will continue throughout the summer as we prepare for our fall semester and the many changes it will require.

- I remind everyone to watch the www.frostburg.edu/fall2020 website, as we are adding information as decisions and procedures are solidified. In particular, there are a number of Frequently Asked Questions that we drew from questions received before and during last week's town hall sessions. (If you missed those sessions, you can view them at [this link](#).)
- Many of the student questions were specific to individuals, however, so if your questions are not answered in the website FAQ, please email us at fall2020@frostburg.edu. We have developed a process that ensures that these individual concerns are being addressed by the right people and that you have a contact person to assist you.
- I have attached a report from our Moving Forward Fall 2020 Recovery Team, a committee that is leading the campuswide effort to prepare for our fall semester. This outlines key areas that are being addressed, policy decisions that have been made, and those areas where work is still needed to execute those decisions.

Please watch for these updates each week as we work through the many requirements for adapting our university to the realities of the COVID-19 pandemic. I encourage you to continue to be safe, and I hope you all are well.

Sincerely,

Ronald Nowaczyk, PhD
President
