Office of Clinical and Field Experience

## Candidate Handbook

# Common Field Experience Policies and Forms: Initial Certification Programs

**Fall 2021 and Spring 2022**

## Table of Contents

### Placement Requirements

- Fingerprinting
- Meetings
- Pre-practice Contact
- Induction
- Field Experience Day Requirement
- Program Placement Procedures

### Field Experience Policies

- Professional Development Days
- Make up Days
- School Procedures
- Attendance: Absences/Tardiness/Early Departures
- Substituting
- Dispositions
- Dress Code
- Confidentiality
- Candidates as Mandated Reporters
- Release for Photos, Videos, Student Work
- Social Media
- Electronic Devices
- Campus/Outside Activities
- \* Intern Issues/Concerns with Mentor or Supervisor

### Performance Evaluation and Concerns Process

- Clinical and Field Experience Performance and Evaluation
- Disposition Performance
- Teaching/Dispositions Concerns Process

### Common Forms

- Make Up Day Approval Form
- Release Form
- Lesson Plan Format – long
- PDS Activities and Experiences Form
- Intern Performance Rating Form
- Professional Dispositions and Responsibilities Evaluation Form
- \* Intern Issue/Concerns with Mentor or Supervisor Form

## **Placement Requirements**

### **Fingerprinting**

All candidates must have a formal fingerprinting/background check completed by Maryland Livescan Fingerprinting prior to field experience. A failure to complete the fingerprinting/background check will prohibit candidates from participating in any field experience required through education coursework. Candidates must meet additional application and background check requirements based on their placement county for internships and will be informed of any additional requirements by the OCFE. For example, interns placed in Frederick, Washington, Garrett and Mineral counties are required to have additional fingerprinting/background checks and TB tests prior to placement. Interns who change county placement may require additional fingerprinting/background checks, and should contact the Office of Clinical and Field Experience for direction.

### **Meetings**

Candidates are required to attend all mandated meetings, such as placement meetings, orientation and other events as announced. The Office of Clinical and Field Experience and/or program coordinator will provide meeting dates and times. Failure to attend required meetings may result in a delay in the start or continuation of field experience, as determined by the program coordinator.

### **Pre-practice Contacts**

Candidates are required to make contact with their mentor teacher prior to the start of the induction or field experience. Each program will determine the method and expectations for the contact and will communicate these directions to candidates. Candidates should demonstrate professional dispositions in their pre-practice contact with school officials and mentors.

### **Induction**

All programs require an induction experience in the Fall semester. This experience requires 3 days in the school placement, with at least 1 day before students arrive and the first days of school. Candidates will record and label induction days on the time record form. Candidates should demonstrate professional dispositions (dress, professionalism) during all induction days. Candidates who are unable to complete the required induction must complete an exception request process with the program coordinator and the Office of Clinical and Field Experience. The candidate would likely have to extend their field experience in the event of school closures upon exception approval.

### **Field Experience Requirement**

All programs require a minimum of 100 days in the field, as mandated by the state of Maryland, completed across several field experience placements. Each program will publish an internship schedule. Candidates are to complete the required number of days for each experience and to follow the published start date and end date for each program. Candidates will follow the annual school system calendar for teacher workdays, professional development, holidays and

school closures. Program coordinators and the Office of Clinical and Field Experience reserve the right to adjust the field experience schedule as needed.

### **Program Placement Procedures**

Placements for all field experiences are made by the Clinical Coordinator in the Office of Clinical and Field Experience. Placements are made in order to meet certification requirements for the State of Maryland.

### **Internship I**

1. The Clinical Coordinator, in collaboration with university, district and school representatives, tentatively assigns the candidate a suitable PDS placement for internship. Factors to be considered are the grade level needed by the students, available mentor teachers, and PDS needs and availability. The candidate provides information about personal circumstances that might impact the placement, but no guarantee can be made that the information will influence the internship placement. Candidates will be notified individually of his or her assignment prior to the Internship I semester.
2. All preliminary contacts of the schools and the mentor teachers are made by the Clinical Coordinator in the Office of Clinical and Field Experiences. Any requests for placement changes must be submitted in writing to the Clinical Coordinator.
3. Candidates wishing to secure an Internship I field experience placement in Frederick or Washington County must submit an application to the Office of Clinical and Field Experience the semester prior to the Internship. Information about the process and the application are in this handbook.
4. Candidates must follow their placement county's policies on fingerprinting and TB tests. Some counties require additional fingerprinting/background checks or TB tests beyond the program and Phase requirements. Candidates should check with the Office of Clinical and Field Experience and their PDS site coordinator regarding any additional requirements.

### **Internship II**

1. The Clinical Coordinator, with university, district and school representatives, tentatively assigns the candidate a suitable PDS placement for internship. Factors to be considered are the grade level needed by the students, available mentor teachers, and PDS needs and availability. The candidate provides information about personal circumstances that might impact the placement, but no guarantee can be made that the information will influence the internship placement. Candidates will be notified individually of his or her assignment prior to the Internship II semester.
2. Each candidate will continue his/her second internship within the same Professional Development School (PDS) as his/her first internship, if possible, in order to provide continuity of placement. If this is not possible, the intern will be placed in another appropriate Professional Development School in order to meet certification requirements or to gain additional experiences with diverse students. If no PDS

opening is available to meet an intern's requirements, other suitable placements will be considered.

3. All preliminary contacts of the schools and the mentor teachers are made by the Clinical Coordinator in the Office of Clinical and Field Experiences. Any requests for placement changes must be submitted in writing to the Clinical Coordinator.
4. Candidates wishing to secure an Internship II field experience placement in Frederick or Washington County must submit an application to the Office of Clinical and Field Experience the semester prior to the Internship. Information about the process and the application are in this handbook.
5. Candidates must follow their placement county's policies on fingerprinting and TB tests. Some counties require additional fingerprinting/background checks or TB tests beyond the program and Phase requirements. Candidates should check with the Office of Clinical and Field Experience and their PDS site coordinator regarding any additional requirements.

### **Relationships**

Candidates will not be placed for a field experience in a classroom with a family member (children, parent, sibling, spouse, aunt/uncle, cousins, etc). Placement in a school where a family member is a faculty or staff member will be avoided, when possible. Candidates will be asked to disclose any family relationships in partner school districts on the Assistantship information form. Any relationship conflicts will be cross checked during Internship I and II placement procedures, but it is the responsibility of the intern to alert the Office of Clinical and Field Experience of a conflict. The program coordinator and the Clinical Coordinator will determine appropriate next steps for a change in field experience if a conflict is identified.

### **Addressing the Mentor, Supervisor, Parents, Educators and Staff**

Candidates should use the appropriate titles when addressing or referring to a mentor, supervisor, parents or other educators during the field experience, as a sign of respect. All candidates should use the appropriate title (Mr. Miss, Ms., Mrs. or Dr.) and the individual's last name when referring to mentors, supervisors, other educators and staff members. Even if a mentor indicates that a candidate could move to a first name basis, faculty feel this would be appropriate only after the candidate has graduated and would be considered a colleague of the mentor. Appropriate titles and surnames should also be used when addressing parents, even if the candidate has a prior social relationship with the parent outside of the classroom. Any candidate questions regarding how to address individuals should be directed to the candidate's mentor or supervisor.

### **University and School Breaks**

Internship I and II candidates will need to follow their placement district's calendar, (i.e., school start, Thanksgiving holiday, Spring Break) during the scheduled internship, in order to ensure that the scheduled number of days is met. Candidates may make special arrangements when differences exist between the university calendar and the school calendar, with permission from the Clinical Coordinator, the University Supervisor, and the Mentor Teacher. Written requests are signed by both the Mentor Teacher and the University Supervisor and submitted

to the Clinical Coordinator in the Office of Clinical and Field Experiences.

### **Disability Accommodations**

Students with any type of recognized and confirmed disability that would require accommodations during a field experience should inform the program coordinator and Clinical Coordinator prior to a field experience, including the submission of a letter prepared by Disability Support Services. Candidates should be aware that the demands and needed accommodations of a classroom course and a field experience may differ significantly, so candidates who are in need of field-based accommodations are encouraged to develop a separate accommodation plan for the field experience. It is the candidate's responsibility to initiate that accommodation process for each field experience.

### **Field Experience Policies**

#### **Professional Development Days**

Professional development days in Internship I will be determined by program. During the Internship II/Practicum II experience, candidates may count **3** professional development days as part of the internship. Each program may designate the use of any or all of these days, such as a program seminar or meeting, interview day, conference attendance, etc.

In order to utilize a professional development day, candidates must provide a written request to both the mentor teacher and university supervisor 48 hours prior to the request date and this request must be approved by both parties. If an intern is scheduled to teach during a requested PD day, the candidate should prepare substitute plans similar to the requirement when their mentor is absent. Following the professional development experience, candidates must provide the mentor and supervisor with tangible evidence from the PD (agenda, handouts, conference program, registration ticket, interview invitation) in order to verify completion of the requested professional development day.

#### **Make Up Days**

Any time in which an intern is absent from the classroom for personal reasons during the scheduled days for field experience are to be made up within the semester. Make-up days are completed after the conclusion of the scheduled field experience but may not be completed in lieu of scheduled class meetings or exam times. Interns should complete the Make Up Day Approval Form in this handbook in order to request necessary make up days after the final Internship date. The University Supervisor and the Clinical Coordinator in the Office of Clinical and Field Experience will address any issues with achieving the required number of days on an individual basis.

#### **School procedures**

Candidates will follow the same school regulations and fulfill the same duties and responsibilities as teachers. Candidates must request mentor approval to use school materials and should follow all school procedures for duty assignments, copying, laminating, etc. Candidates should plan to provide all consumable materials for their lessons.

Candidates are not to leave the school grounds during the teacher duty day, if students are in the building. If a candidate must leave early, due to illness or an unavoidable circumstance, candidates must have direct approval from the Mentor Teacher. Candidates must also provide notice to the university supervisor and the Office of Clinical and Field Experience, using the same contact procedures as in the case of absence or tardiness (see below).

### **Attendance: Absences/Tardiness/Early Departure**

Candidates will adhere to the same daily schedule and routine as their mentor teacher. Candidates should also plan to attend all meetings and on-site professional development opportunities at their school. All Assistants and Interns are guests in the schools and must follow the appropriate sign-in procedures each day. Falsifying a record is a major violation and can result in termination from the placement and possibly the program. Candidates should arrive and depart the assigned school at the same time that regular members of the teaching staff arrive and depart.

**If absent, tardy or needing to leave early, the intern is to notify the following people by a phone call:**

1. **The Mentor Teacher and Principal /Designee**– Before the start of the school day
2. **The Office of Clinical and Field Experience**– Contact Ms. Arnold at 301-687-3087 before 9:00 a.m.
3. **The University Supervisor** – before 9:00 a.m but ASAP if the Supervisor is scheduled to conduct an observation on that day.

**Candidates are strongly encouraged not to miss days during the field experiences.**

If there are repeated absences, tardiness or early departures, candidates will meet with appropriate university coordinators and school representatives to resolve issues. A candidate may be removed from the internship if absence/tardiness procedures are not followed, for repeated tardiness or for unexcused absences.

In the event that a candidate becomes ill during the school day and must leave the placement prior to the end of the school day, the candidate must have Mentor Teacher consent prior to departure. The university supervisor should be informed at a later date. If substantial time is missed, the candidate must plan to make up a full day at the conclusion of the internship, using the make-up day procedures.

### **Substituting**

If a candidate is willing to do so, he/she may be used as a substitute teacher in a critical need situation. A critical need situation is defined as a time when all other available options in the school have been considered. In a critical need situation, a candidate covering as a substitute teacher will be paid for either a half-day or a full day. The candidate will not be paid by the hour. The candidate must have completed substitute training in the county for which they are interning if they are to be paid. If the candidate is not willing to serve as a substitute teacher, he/she cannot be forced to do so. The candidate

should not be scheduled as a substitute teacher. For example, if Mr. X. knows he will be out for the day, he should not schedule a candidate to substitute for him. A candidate covering as a substitute teacher will only be eligible to cover the classes that are part of his/her practicum. The cooperating professional will be the educator who has to cover for another teacher.

### **Professional Dispositions**

One of the critical aspects of success in the field is professional dispositions for teaching. Candidates should act in a professional manner at all times, in both the university classroom and in the school environment during the field experiences. Candidates must arrive and depart the assigned school on time, following the same schedule as the regular members of the teaching staff, and complete a full day of activities related to the instructional program. If not teaching a class, an intern should be observing the mentor teacher, assisting the mentor teacher as needed, working on development of the curriculum or learning environment, or collaborating with others on professional agendas. Candidates should display professionally acceptable verbal and non-verbal behaviors at all times. Candidates demonstrate a commitment to the internship experience through positive attitudes and respectful interactions with administrators, school staff and personnel, parents, his/her mentor teacher and students. If a candidate's professional dispositions are deemed unacceptable by the principal, mentor or university representatives, the necessary procedures for improvement will be followed. If improvement is not shown, a candidate could be removed from the placement and would fail the field experience. The assistant/intern, mentor teacher and university supervisor will evaluate professional dispositions and responsibilities during each field experience. The forms and additional information regarding this evaluation are located in this handbook.

### **Dress Code**

During all field experiences, candidates must dress professionally when present at school. Candidates are expected to adhere to district dress code and the program-established dress code, which may exceed the district expectations. Candidates should dress appropriately for their teaching situation, with attire that allows for easy movement, comfort and does not distract from the learning environment. Candidates should be well groomed, with no piercing beyond ears and tattoos covered. Each day is a job interview for an intern, so candidates are strongly encouraged to make a good impression with their appearance every day.

Candidates' attire should reflect a seriousness and commitment to the business of education. Gentleman should wear a shirt/tie or collared shirt and slacks. Ladies' attire could include a blouse and slacks, skirt or dress (knee length or longer). Flat or low-heeled shoes would be appropriate. Flip-flops are not allowed. In general, clothing should not be too casual, too loose/tight or revealing. Casual attire (sweatpants, yoga pants, leggings. etc) would not be appropriate for teaching.

### **Transportation**

Transportation to and from the field experience is the responsibility of each candidate. Field experience instructors and coordinators can assist students in locating other candidates who

might be able to provide transportation. Candidates who have access to a car are encouraged to participate in carpools. Candidates who are being transported by peers should be courteous and respectful (timeliness, compensation for gas, etc). Placements close to campus may be requested by those candidates who do not have transportation, but the availability of these placements is not guaranteed.

### **Confidentiality**

Candidates must follow accepted practices for confidentiality of student information, of both a formal and informal nature. Under the Family Educational Rights and Privacy Act (FERPA), schools and teachers are required to protect the privacy rights of students. Candidates may not be allowed to view student records and should protect any information provided to them concerning a student's educational record. Candidates are also obligated to hold information gained through their classroom and school interactions with students in confidence. They should not speak about school matters, including information about students, teachers or administrators, inside or outside of the school environment. Any discussion with parents about student performance and behavior should be confined to formal conference settings. Since sensitive information about students, faculty and staff is part of the school environment, candidates must act with discretion (exercising prudence and self-restraint in speech and behavior) and tact (skill or judgment in difficult or delicate situations).

### **Candidates as Mandated Reporters**

As an educator working in classrooms with students, all assistants and interns are considered mandatory **reporters for child abuse** by the State of Maryland. In order to make a report, proof of abuse or neglect is not required. Incidents are to be reported to a mentor teacher and school administrators as soon as they are suspected. If a candidate suspects a case of child abuse or neglect, he or she should report the evidence to the mentor teacher and university supervisor. The next steps in the reporting process would follow school/district policies for mandatory reports. If a mandatory reporter knowingly fails to report suspected abuse of a child, this person may be subject to professional sanctions by licensing boards or in the case of an assistant/intern, difficulties in obtaining certification. Anyone that makes a "good faith" report is immune from civil liability and criminal penalty.

### **Release for Photos, Videos, and Student Work**

Candidates are encouraged to collect classroom artifacts of their teaching, through photos, videos and student work samples. These materials would be shared in course assignments, class presentations and candidate portfolio development and interviews. While schools and districts typically require parents to provide releases for student images, candidates will also be required during each field experience to gain parent permission to use these types of materials. Only first names of students are used and other identifying information deleted in order to maintain student confidentiality. For each field experience, candidates should send home a copy of the form with each student and must maintain a record of those students for whom a release was or was not provided. The release form is located in this handbook.

## **Social Media**

Candidates must be extremely cautious with social media use when completing field experiences. **Classroom experiences should not be described, nor should pictures from classroom experiences be posted to a candidate's social media accounts or shared with others through personal social media outlets.** Candidates are strongly encouraged to set all social media accounts to "private" during their field experiences, even though individuals should be aware that nothing on the internet is completely private. Candidates should consider outside audiences, such as students, parents and prospective employers, when posting pictures, making comments and crafting status updates even with protected settings. During field experiences, candidates should not "friend" or communicate with students, mentors or parents on social media. Candidates must also follow the placement district's policies on social media use.

## **Electronic Devices**

Candidates should not use cell phones, tablets or other electronic communication devices during instructional time in the field, unless for a specific instructional purpose (photos, lesson videos, calculator, voice recording, remote, etc). No phone calls, texting or social media communication should occur during the instructional day. Candidates may provide the school's phone number as a contact in case of an emergency. Issues with inappropriate electronic communication device use will be treated as a professional disposition concern.

## **Campus/Outside Activities**

In order to obtain the most benefit from the professional semester, the candidate should limit all outside activities, including participation in demanding extra-curricular activities. Ideally, candidates would minimize outside employment during the internship semester(s). Employment should not interfere with internship, coursework and other program responsibilities.

## **Issues/Concerns with Mentors or Supervisors**

If you have an issue with your mentor or supervisor, it is important to attempt to resolve the issue through a discussion with him/her. If the issue persists, or you do not feel that you can discuss the issue with him/her, please complete the FSU Intern's Issues/Concerns form and schedule an appointment with Mr. Eirich in the Office of Clinical and Field Experiences.

## **Performance Evaluation and Concerns Process**

### **Clinical and Field Experience Performance and Evaluation**

Candidates teaching and professional performance will be evaluated informally and formally across each field experience.

### **Teaching Performance**

During Internship I, evaluation of performance will be documented in the Internship

Performance Rating at the end of the experience (See OFCE handbook). The candidate will conduct a self-evaluation of their performance in the domains and relevant indicators. The Mentor Teacher and University Supervisor will also evaluate the intern on these same items and this information will be shared with the candidate at a three-way conference. The Mentor and Supervisor's consensus rating will serve as the Evaluation Council (EC) rating. This form will be used for evaluation of Internship II, at a mid-point and final evaluation conference. In both internships, an intern's progress will be rated on the following scale:

- **Highly Effective:** Candidate performed at a level well beyond that expected of a preservice candidate; reflective of exceptional strengths only
- **Effective:** Candidate performed commendably; reflective of successful efforts
- **Developing:** Candidate performed adequately and shows progress toward mastery; reflective of acceptable efforts
- **Ineffective:** Candidate performed at a level less than developing level during practicum experience; reflective of the need to strengthen and/or develop competency to pass the practicum experience
- **Not Observed:** Candidate performed at a level insufficient for appropriate judgment

Intern II's must receive Developing or better on each item in order to receive a Pass for the internship. If a student receives an Ineffective rating (I) for any criteria at the evaluation point for the field experience, the following procedures will be followed:

- **Internship I:** Criteria rated ineffective will be included in a contract to be applied to the Internship II semester. Multiple ineffective ratings may result in removal from the field experience and a failing grade.
- **Internship II:** Criteria rated ineffective at the midpoint evaluation will be included in a contract. Multiple ineffective ratings may result in removal from the field experience and/or a failing grade. Any criteria rated ineffective at the final evaluation would result in a failing grade.

If a candidate receives multiple "developing" ratings on teaching performance measures, the supervisor and candidate will engage in goal-setting in an effort to identify and plan for improvement. The mentor might also be involved in this process. This will occur during a post-observation conference and will be recorded on the Intern Observation form. It is expected that improvement will be noted at the next observation (within 2 weeks). If sufficient improvement has been shown, the supervisor will document the improvement and the process ends. If any of the identified concerns are still present at the next observation, an improvement plan will be initiated.

This rating form with the required signatures, along with other required paperwork, is submitted to the Office of Clinical and Field Experiences at the end of each internship. The final EC score will also be submitted electronically to Taskstream by the University Supervisor.

## **Procedures for Teaching Performance Concerns**

When a candidate is not performing at an expected level on teaching or other professional responsibilities, the following steps will be taken:

1. The mentor teacher communicates the identified concerns with the university supervisor. The mentor teacher and the candidate meet to discuss the problem(s) and generate a list of concerns, evidence and improvement actions. A short- term deadline for improvement would be identified and a review meeting would be scheduled (see Improvement Plan form in this Appendix) . The supervisor would be present at this meeting and all parties should sign and receive a copy of the improvement plan. This communication at this point in the process may be through email. The Clinical Coordinator Program Coordinator are made aware of the improvement plan by the university supervisor.
2. The mentor teacher, university supervisor and candidate will meet to review the improvement plan. If sufficient improvement has been shown on all listed items, the process ends. If any of the identified concerns persist after the probationary period outlined in the plan, a formal contract delineating behavior goals is developed and signed by the assistant(s)/intern, supervisor, and mentor teacher. The contract language, length of term, and timeline for improvement will depend on the circumstances and the severity of the problem. Active contracts will require regular review with the mentor, supervisor and candidate. A copy of the contract will be signed by and provided to the candidate, mentor teacher and supervisor. The Clinical Coordinator and Program Coordinator are contacted and informed about the concerns and the stipulations of the contract. A contract template is included in this handbook. The supervisor will formally observe the candidate within 5 days regarding the contract expectations. At least one other person will formally observe the candidate (another supervisor, the site coordinator, another teacher, and/or the principal) within 10 days of the contract date. These observations may be unannounced. Each observer writes a formal evaluation addressing the goals cited in the written contract. A copy of each evaluation is given to the candidate, mentor, university supervisor and placement officer. Within 10 days of the contract date, the mentor, supervisor, and candidate would meet to assess the intern's progress. If there is documented improvement at this point, a new contract may be generated, and the process begins again.
3. If there is not sufficient improvement and/or the written stipulations in the contract are not followed: The supervisor, mentor teacher and university representatives will meet with the candidate regarding the contract expectations and teaching performance. All documentation will be presented at the meeting and will be filed in the candidate's permanent folder. The school PDS site coordinator and school principal may be involved in this meeting. Based on the

judgment of the supervisor, mentor teacher, university representatives and school representatives, the intern may be removed from the internship placement or other appropriate actions will be taken. **Failure to meet contract requirements would result in a failing grade.**

### **Disposition Performance**

A Professional Dispositions and Responsibilities evaluation is required for each field experience. Based on the expectations for candidate behavior in the field, this evaluation is completed by the candidate, Mentor Teacher and University Supervisor. The Mentor and Supervisor's consensus rating will serve as the Education Council (EC) rating. The completed forms are reviewed at each three-way meeting. Interns with any ratings of ineffective at the conclusion of Internship I/Practicum I will follow an improvement process for the next experience.

**Candidates must receive Developing or better on each item in order to Pass the Internship.** A final copy of the form is included with the Field Experience paperwork submitted to the Office of Clinical and Field Experience by the University Supervisor, as well as the final ratings submitted electronically via Taskstream.

### **Professional Dispositions Performance**

A Professional Dispositions and Responsibilities evaluation is required for each field experience. The form for each experience is available in the OFCE handbook and this appendix. Based on the expectations for candidate behavior in the field, this form will be completed individually by the candidate as well as the Evaluation Council (EC) comprised of the mentor teacher and university supervisor. The completed forms will be reviewed at each three-way meeting and a final copy of the form will be submitted with the Field Experience paperwork to the Office of Clinical and Field Experience by the University Supervisor, as well as the final ratings submitted electronically via Taskstream. Evaluation must be completed at the following points for each field experience:

- Internship I – At final evaluation
- Internship II – At midpoint and final evaluation

Informal feedback on dispositions should be provided by mentors and supervisors across each field experience, using the formal evaluation form or the informal Professionalism Progress Sheet (see this Appendix)

If a student receives an Ineffective rating (I) for any dispositions criteria at the evaluation point for the field experience, the following procedures will be followed:

- Internship I: Criteria rated ineffective will be included in a contract to be applied to the Internship II semester. Multiple ineffective ratings may result in removal from the field experience and failing grade.
- Internship II: Criteria rated ineffective at midpoint evaluation will be included in a contract. Multiple ineffective ratings may result in removal from the field experience and failing grade. Any criteria rated ineffective at the final evaluation would result in a

failing grade.

### **Procedures for Professional Behavior Concerns**

When a teacher candidate does not meet the expectations for profession behavior, the following steps will be taken:

1. The mentor teacher communicates the identified concerns with the university supervisor. The mentor teacher and the candidate meet to discuss the problem(s) and generate a list of concerns, evidence and improvement action. A short- term deadline for improvement would be identified and a review meeting would be scheduled (see Improvement Plan form in this handbook). The supervisor could be present at this meeting and all parties should sign and receive a copy of the improvement plan. The Clinical Coordinator and Program Coordinator are contacted and informed about the concerns and the developed plan.
2. The mentor and supervisor will hold a review meeting with the candidate to review the existing evidence and documentation. If immediate and consistent improvement is shown, the improvement process can end. If the demonstrated improvement in professional dispositions is inconsistent by the stated deadlines, the mentor teacher and university supervisor will discuss the next steps in the process with the candidate. The plan may be revised based on candidate's improved professional dispositions and continued areas of concern or a professional dispositions contract would be utilized.
3. Within 10 days of the contract date, the mentor, supervisor, intern and university representatives would meet to review the contract and related evidence and documentation. If the contract stipulations have not been met, the supervisor, mentor teacher, university representative and school representatives will recommend that the intern be removed from the internship placement. In this case, a failing grade for the field experience course would be applied. **Failure to meet contract requirements may result in a failing grade.**

**The University has the authority to suspend or terminate a teacher intern's experience for unsatisfactory teaching performance and/or professional behavior at any stage of the internship. The University also has the authority and responsibility to place conditions on any suspended intern before he/she can return to a teaching internship.**

The school has the right to request the immediate removal of the candidate immediately if teaching or professional performance expectations are not met. This decision can be made by the principal, upon recommendation of the mentor teacher or PDS site coordinator. The Program Coordinator, in collaboration with representations from the Office of Clinical and Field Experience, can also suspend or terminate the candidate's field experience. If a candidate is removed from a placement due to school request, a committee led by the Program Coordinator, would determine the resulting grade for the field experience course.

## **Intern/Mentor Relationship**

The professional relationship between a mentor and intern is a critical aspect of the field experience. The nature of this relationship can have a lasting impact on the intern as he/she transitions toward independence in the classroom and to assuming all the duties and responsibilities as a classroom teacher. This is also a rich experience for the mentor, as he/she guides and inducts a new colleague into the profession. It is important for both parties to realize that it takes time and effort to develop this type of meaningful working relationship. Specific practices and activities can help to establish and maintain this critical connection:

- Take time to get to know each other outside of the daily pressure of the classroom
- Set clear goals and develop a mutual understanding of expectations for everyone
- Keep lines of communication open by planning daily opportunities to talk, listen, reflect, plan, and address questions
- Work as a team to share classroom responsibilities and share a focus on student learning
- Adopt a positive attitude, as shown through words and actions
- Be respectful of each other as people and professionals
- Be flexible and open minded when receiving and providing constructive feedback

## **Mentor and Intern Joint Interview**

During the first days of the field experience, the mentor and intern should set aside a short period of time to learn about each other, outside of the pressures of the school day. In this conversation, each person takes turns shares his/her answer to each question:

- What is your prior experience?
- How does teaching excite and challenge you?
- How would you describe your teaching style?
- What do you hope to learn or gain from the mentor/intern experience this semester?
- How would you describe your life outside of the school/classroom?
- What other things should I know about you?

## **Time Record**

The candidate is required to keep a record of time spent in the schools. Candidates should limit time recorded to the teacher duty day and should record their time use at the end of each internship day. University supervisors sign on the date of each visit. The Mentor Teacher and University supervisor will verify the number of days completed for the experience. The signatures of both the mentor teacher and university supervisor on the time record cover page will authenticate this record. The following activities should be documents on the time record.

1. Observation: Time when the assistant/intern is watching another person who is in charge of activities for the students. For example, Observed Math lesson – 45 minutes.
2. Non-instructional time: Time when the assistant/intern is not in charge of activities with students. For example, lunch running copies, checking papers while in school. The time is described and time recorded. For example, Lunch – 30 minutes.
3. Teaching time: Time when the assistant/intern is in charge of the classroom, small groups of students, or tutoring individual students. For example, Teaching circle time – 20 minutes.

Use a number two pencil to record times on the timesheet pages or use the template available on the department web page to create a typed record. Insert a number for each completed day to aid with determining the total number of full days completed in the experience.

The time record cover sheet is a permanent record of the field experience days completed and must have the required signatures. All signatures should be in blue ink. Attach all completed time sheets to the time record

cover sheet for submission to the university supervisor at the end of the experience.

**SAMPLE TIME SHEET**

<b>Day #</b>	<b>Date/Time</b>	<b>Observation</b>	<b>Non-instructional</b>	<b>Teaching</b>	<b>Supervisor Initials</b>
		Description and Time	Description and Time	Description and Time	
1	1/30/10 (T) 8:00 – 3:30 450 min. (7hr. 30min.)	Observed procedure 25 min; Observed Math 35 min, SS 25 min, Lang Arts lessons 30 min; Observed dismissal procedures 20 min  Total: 135 min.	Reviewed sub notes, text books, classroom set-up 35 min; checked and org. papers 75 min; lunch duty 30 min; lunch 30 min; discussed lessons and classroom schedule with substitute and aide 75 min  Total: 245 min.	Assisted with desk work in math, SS, and Lang Arts 70 min  Total: 70 min.	
2	1/31/10 (W) 8:00 – 3:30 450 min.	Observed: Math on and off throughout 3 lessons 40 min; swish 10 min; dismissal procedures 20 min  Total: 70 min	Teacher planning 35 min; hall duty 15 min; discussed guided reading and other items with Mrs. F and reviewed guided reading info 110 min; lunch 30 min  Total: 190 min	Assisted with desk work in math classes 50 min; taught Lang Arts 105 min, ADD 15 min, and Daily language 20 min  Total: 190 min.	
3	2/1/10 (R) 8:00 – 3:30 450 min.	Observed: Math 30 min; dismissal 20 min  Total: 50 min	Teacher planning 35 min; check assignment books 10 min; checked papers 50 min; lunch duty 30 min; lunch 30 min; talk with Mrs. R. 40 min  Total: 195 min.	ADD 15 min, Daily language 15 min, guided reading 85 min, work with groups in math 75 min  Total: 205 min.	M. P.
4	2/2/10 (F) 8:00 – 1:30 330 min.	Observed dismissal 20 min  Total: 20 min	Teacher planning 35 min; check assignment books 10 min; supervise assembly 50 min; check papers, review texts lesson ideas 60 min; lunch 30 min;; read texts for guided reading 30 min  Total: 215 min.	ADD 15 min, spelling test and checked ADD 30 min, assist individuals with quizzes during 3 math classes 50 min  Total: 95 min.	
	Total: 1680 min.	Total: 275 min.	Total: 845 min.	Total: 560 min.

# The InTASC Model Core Teaching Standards (April 2011) at a Glance

## **The Learner and Learning**

### Standard #1: Learner Development

The teacher understands how learners grow and develop, recognizing that patterns of learning and development vary individually within and across the cognitive, linguistic, social, emotional, and physical areas, and designs and implements developmentally appropriate and challenging learning experiences.

### Standard #2: Learning Differences

The teacher uses understanding of individual differences and diverse cultures and communities to ensure inclusive learning environments that enable each learner to meet high standards.

### Standard #3: Learning Environments

The teacher works with others to create environments that support individual and collaborative learning, and that encourage positive social interaction, active engagement in learning, and self-motivation.

## **Content Knowledge**

### Standard #4: Content Knowledge

The teacher understands the central concepts, tools of inquiry, and structures of the discipline(s) he or she teaches and creates learning experiences that make these aspects of the discipline accessible and meaningful for learners to assure mastery of the content.

### Standard #5: Application of Content

The teacher understands how to connect concepts and use differing perspectives to engage learners in critical thinking, creativity, and collaborative problem-solving related to authentic local and global issues.

## **Instructional Practice**

### Standard #6: Assessment

The teacher understands and uses multiple methods of assessment to engage learners in their own growth, to monitor learner progress, and to guide the teacher's and learner's decision making.

### Standard #7: Planning for Instruction

The teacher plans instruction that supports every student in meeting rigorous learning goals by drawing upon knowledge of content areas, curriculum, cross-disciplinary skills, and pedagogy, as well as knowledge of learners and the community context.

### Standard #8: Instructional Strategies

The teacher understands and uses a variety of instructional strategies to encourage learners to develop deep understanding of content areas and their connections, and to build skills to apply knowledge in meaningful ways.

## **Professional Responsibility**

### Standard #9: Professional Learning and Ethical Practice

The teacher engages in ongoing professional learning and uses evidence to continually evaluate his/her practice, particularly the effects of his/her choices and actions on others (learners, families, other professionals, and the community), and adapts practice to meet the needs of each learner.

### Standard #10: Leadership and Collaboration

The teacher seeks appropriate leadership roles and opportunities to take responsibility for student learning, to collaborate with learners, families, colleagues, other school professionals, and community members to ensure learner growth, and to advance the profession.

## Parent/Guardian Release Form

Intern Name: \_\_\_\_\_  
(please print)

Mentor Teacher: \_\_\_\_\_

Dear Parent or Guardian,

A teacher education intern from Frostburg State University will be working in your student's classroom this semester. During their experience, interns are expected to collect classroom artifacts such as video of students, photos of students, and/or samples of student work.

Videos, photos, and samples of student work are often used as instructional tools and to evaluate an intern's teaching performance. These items may be shared as part of the intern's course work and may appear on bulletin boards, in multimedia presentations, on password – protected websites and in intern portfolios. Only first names of students may be used. No videos, photos, or student work will be used for any purpose not directly related to educational activities.

**Yes**, I give my permission for videos and photos containing my student's image and my student's work samples to be used for educational purposes by a teacher education intern at Frostburg State University.

**No**, you may not use videos, photos, and/or work involving my student.

Student's Name: \_\_\_\_\_  
(please print)

Parent/Guardian Signature: \_\_\_\_\_

Date: \_\_\_\_\_

*Frostburg State University Lesson Plan Format*

**GENERAL INFORMATION**

---

Grade/Level:

Time Allotment:

Subject(s):

Topic:

Lesson Concept(s):

Essential Questions:

Prerequisite Skills and or Concepts (Identify the skills and/or concepts students would need to have prior to participating in this lesson):

Materials for Students:

Teacher Resources:

**STANDARDS AND OBJECTIVES/LEARNING OUTCOMES**

---

Lesson Objective(s)/Learning Outcomes: Audience, Behavior, Condition, Degree (ABCD):

Maryland College and Career Ready Standards and/or Content Standards:

**ASSESSMENT**

---

How will you evaluate the mastery of the objective (s)/learning outcomes?

What tools/methods will you use to assess based on the objective/learning outcome(formative/summative)?

How will you differentiate assessments for diverse learners?

**PROCEDURES (with attention to UDL)**

---

Introductory Activities (engage):

Teaching Activities (explore, explain, elaborate):

Closure Activities (evaluate):

Differentiated Instruction (meeting the needs of):

- Special needs students:
- Learning styles:
- ELL students:
- Gifted/talented learners:

**REFLECTION**

---

What was successful in the lesson? What needs improvement?

Were the lesson objective(s) met? How do you know?

What are your next steps?

Clinical Faculty

**Directions:** Rate the candidate's level of progression on each competency using the scale below. In the final evaluation for Internship II/Practicum II, the candidate must be evaluated as **developing or better on each competency to receive a final grade of Pass**. The midpoint and final evaluations will be finalized collaboratively in a three-way evaluation conference. The candidate will evaluate him/herself on each competency prior to the three-way conference with the mentor teacher and the university supervisor.

### Rating Scale:

- H** – Highly Effective: Candidate performed at a level well beyond that expected of a preservice candidate; reflective of exceptional strengths only
- E** – Effective: Candidate performed commendably; reflective of successful efforts
- D** – Developing: Candidate performed adequately and shows progress toward mastery; reflective of acceptable efforts
- I** – Ineffective: Candidate performed at a level less than developing level during practicum experience; reflective of the need to strengthen and/or develop competency to pass the practicum experience
- NO** – Not Observed: Candidate performed at a level insufficient for appropriate judgment

### Evaluators:

**EC** – Evaluation Council includes the consensus of the Mentor's rating (**M**) and Supervisor's rating (**S**), with a separate column for the intern/practicum student's self-assessment (**I/P**)

**Domain 1: Designing Coherent Instruction**

The teacher candidate designs and organizes instruction and assessment procedures for all students based upon a thorough knowledge of subject matter, pedagogy, and students.

# PROFESSIONAL DISPOSITIONS AND RESPONSIBILITIES RATING FORM

Candidate Name \_\_\_\_\_ Date of Assessment \_\_\_\_\_ Field Experience: **Internship I** **Internship II**  
 Evaluation Period: Mid-point Final

**Dispositions** are defined as those professional attitudes, values, and beliefs expected of an education professional.

**Responsibilities** are defined as obligations and duties required of an education professional.

Professional Dispositions – Candidates are expected to:	<u>INTASC</u>	Ineffective	Developing	Effective	Intern Mid Point	M/S EC Mid Point	Intern Final	M/S EC Final
Show sensitivity to and respect differences of all individuals	<u>2,3</u>	Candidate behaves in a manner that is narrow- or close-minded toward diverse perspectives.	Candidate usually models respect for all people and treats others with courtesy; candidate occasionally participates in efforts to advocate for consideration of diverse perspectives.	Candidate consistently models respect for all people and treats others with courtesy and open-mindedness; candidate seeks or leads efforts to advocate for inclusion and consideration of diverse perspectives.				
Demonstrate commitment to reflection, self-assessment of one’s practice, and responsibility for one’s own actions	<u>9</u>	Candidate does not provide any substantive suggestions for positive self-improvement and fails to see the need for positive changes; candidate assigns blame to others for negative results or takes no responsibility for emotional reactions.	Candidate usually evaluates own performances with a critical lens, generates partial improvements or revisions, and applies them to future performances; candidate generally accepts responsibility for his/her own actions and emotions.	Candidate consistently evaluates own performances with a critical lens, generates potential improvements or revisions, and applies them to future performances; candidate accepts responsibility for his/her own actions and emotions.				
Accept and act upon reasonable critical evaluation	<u>9</u>	Candidate rejects suggestions from others directly or fails to act on suggestions.	Candidate is open-minded and positive when receiving feedback from others; candidate demonstrates the ability to act on suggestions.	Candidate actively seeks information and perspectives from others to evaluate own performance, demonstrates in-depth analysis and synthesis				

				of viewpoints, and incorporates them into future performances.				
Demonstrate flexibility	<u>7</u>	Candidate is rigid and cannot adapt to changing Circumstances.	Candidate usually demonstrates ability to act spontaneously and adapt according to circumstances for the good/benefit of the classroom practice.	Candidate consistently demonstrates ability to act spontaneously and adapt according to circumstances for the good/benefit of the practice; candidate demonstrates ability to think outside the box when seeking alternative actions.				
Establish positive professional relationships	<u>10</u>	Candidate is disrespectful in interactions with peers, colleagues, parents, students, or authority figures; candidate disregards or rejects diverse perspectives.	Candidate usually displays appropriate and courteous professional interactions with and gains respect from peers, colleagues, parents, students, or authority figures; candidate communicates respect and understanding of diverse perspectives.	Candidate consistently displays appropriate and courteous professional interactions with and gains respect and trust from peers, colleagues, parents, students, or authority figures; candidate communicates respect and understanding of diverse perspectives and listens to and shows interest in the ideas and opinions of others.				
Treat all individuals respectfully and appropriately	<u>2, 10</u>	Candidate does not display either equitable or respectful behavior and/or attitudes within the professional community; candidate demonstrates the belief that not all individuals can achieve at high levels.	Candidate generally displays an equitable and respectful behavior and attitudes within the professional community; candidate generally demonstrates the belief that all individuals can achieve at high levels.	Candidate consistently displays positive, equitable and respectful behavior and attitudes within the professional community; candidate consistently demonstrates the belief that all individuals can achieve at high levels.				

Demonstrate energy and commitment to professional practice	<u>9</u>	Candidate displays little or no interest or excitement about his/her profession; candidate lacks commitment to performing his/her professional responsibilities.	Candidate models interest and eagerness about his/her profession; candidate is dedicated to performing his/her professional responsibilities.	Candidate consistently models a passionate interest in his/her professional practice; candidate is highly dedicated and eager to perform at high levels in professional practice.				
Demonstrate commitment to Continuous learning	<u>9</u>	Candidate fails to seek out new research and practices that advance his/her professional competence.	Candidate seeks out new research and practices that advance his/her professional competence and intellectual vitality as a continuous learner.	Candidate takes a leadership role in seeking out new research practices and learning opportunities that advance his/her professional competence and intellectual vitality as a continuous learner.				
Work collaboratively with others, e.g., students, teachers, parents, administrators, and peers	<u>10</u>	Candidate does not consistently interact with others in ways that communicate respect; candidate repeatedly waits for others to take the lead or hinders progress and only considers personal perspectives.	Candidate interacts with other in ways that communicate respect; candidate engages with others on a limited scale, with attention to some stakeholder perspectives.	Candidate consistently interacts with others in ways that communicate respect; candidate engages in open dialogue and effective action to accomplish goals as part of a larger group and considers perspectives from all stakeholders.				

<b>Professional Responsibilities:</b> <i>Candidates Must:</i>	<i>INTASC</i>	<b>Ineffective</b>	<b>Effective</b>	<b>Intern Mid Point</b>	<b>M/S EC Mid Point</b>	<b>Intern Final</b>	<b>M/S EC Final</b>
Dress appropriately for one's professional contexts	<u>9</u>	Candidate's choice of dress indicates that the candidate needs to be more mindful of expectations regarding professional appearance and places personal expression before professionalism.	Candidate's choice of dress shows good professional judgment, reflects a balance between personal expression and professionalism, and indicates a high level of self-respect and respect to others.				

Be punctual for all responsibilities and duties	<u>9</u>	Candidate does not consistently arrive to class, appointments, meetings at the time designated; changes in schedule/absences are not reported in a timely manner. Candidate does not consistently demonstrate sound time management and misses deadlines.	Candidate arrives to class, appointments, meetings prepared at the time designated; necessary changes in schedule/absences are reported prior to scheduled obligation. Candidate's actions reflect sound time management, in meeting deadlines.				
Respect the privacy of individuals and the confidentiality of information	<u>9</u>	Candidate does not maintain confidentiality of records; candidate does not respect confidentiality of professional correspondence or conversations.	Candidate maintains confidentiality of P-12 student records and of professional correspondence and conversations; candidate does not tolerate gossiping or abuses of confidentiality by others.				
Behave with professional integrity	<u>9</u>	Candidate does not consistently honor the needs and best interests of students, the work setting, or the profession.	Candidate consistently and appropriately honors the needs and best interests of students, the work setting, and the profession including a pattern of professional behavior such as academic honesty and separation of personal and professional domains.				
Assume all responsibilities considered to be an integral part of the professional's duties	<u>9</u>	Candidate is not accountable for satisfactorily fulfilling all professional duties.	Candidate always takes the professional role very seriously and satisfactorily fulfills all professional duties.
