# **M.Ed. Core Course Discussion**

**KPD data will be reviewed at an APLC meeting during the fall 2024 semester. Discussion will continue around the implementation of this in the first 18 credits of the program (CUIN 654) and as program completers. Identification of an appropriate place to evaluate KPD at the end of the M.Ed. concentrations outside of School Counseling will be determined at a fall 2024 APLC meeting.**

**The APLC will continue to work on concentration handbooks during the fall 2024 meetings. The APLC will meet to decide if a common Canvas shell would be the best solution to communicate expectations. The M.Ed. Program Common Handbook will also be reviewed.**

# M.Ed. Dispositions

*How do our school partners perceive the dispositions of our M.Ed. Candidates? Have our school partners seen the rubric used to evaluate the KPDs?*

# Concentration Handbooks

*Are there components that should be included in specific concentration handbooks that you believe are an issue because they have not been communicated clearly to our candidates or their mentors?*
