SUBSTANCE ABUSE POLICY

Frostburg State University is committed to the pursuit and dissemination of knowledge and, as such, expects all members of the academic community to behave in a manner conducive to that end. Illegal or abusive use of drugs or alcohol by members of the university community severely limits their educational and human potential and their ability to achieve educational career and personal goals, jeopardizes the safety of the individual and the university community, and adversely affects the mission of the university. Frostburg State University is therefore committed to having a campus that is free of the illegal or abusive use of drugs and alcohol. Toward that end, it is the policy of the university that the illegal or abusive use of drugs or alcohol by employees and students is prohibited on university property or as a part of any university activity whether on or off campus.

In accordance with the university’s responsibilities under the Federal Drug-Free Schools and Communities Act Amendment of 1989, and the Maryland Higher Education Commission’s Policies Concerning Drug and Alcohol Abuse Control, the university provides the following information to its employees and students.

In the event it is determined by the university that an employee who has been finally convicted of violating a criminal drug statute was employed in the performance of a federal contract or grant the Director of the Office of Contracts and Grants shall notify the sponsoring federal agency within ten days of receiving notice from the employee or otherwise receiving actual notice thereof.

5. All employees convicted of off-the-job drug or alcohol offenses are in violation of the State of Maryland Substance Abuse Policy and will be subject to disciplinary action.

6. Where justified by observation or reliable information, suspected controlled dangerous substance or alcohol offenses committed by an employee at the workplace shall be referred to an appropriate law enforcement authority for further investigation and prosecution. All employees must cooperate fully with appropriate law enforcement authorities in the investigation and prosecution of illegal drug or alcohol use.

7. All university employees are required to acknowledge receipt of the State of Maryland Substance Policy as a condition of employment.

Students convicted of federal, state and/or local alcohol or drug laws on or off campus also violate the University Standards of Personal and Group Conduct and may be subject to appropriate disciplinary action. Students accused of violating a federal, state and/or local drug law on or off campus which is considered a felony under federal, state or local law, may face disciplinary action under the University Standards of Personal and Group Conduct, including interim suspension pending a university hearing, prior to or concurrent with any criminal proceeding.
