LIBRARY COLLECTION DEVELOPMENT

The role of the Library is to fulfill the purposes and objectives of Frostburg State University. The Library has the responsibility of serving the reference, research, and recreational needs of the faculty and students of the University. Therefore, it is the objective of the collection development policy to build a collection to service the needs of the university community both now and in the future. The aim is to build a collection, in all appropriate fields, of the highest degree of excellence, both qualitative and quantitative, with regard to the availability of budgetary resources.
