

OCCUPATIONAL EXPOSURE TO  
BLOODBORNE PATHOGENS

Frostburg State University complies with 29 CFR 1910.1030, the OSHA Bloodborne Pathogens Standard, and with relevant sections of the Maryland Communicable Disease Law and the Maryland Special Medical Waste Management Rules. This policy is designed to help Frostburg State University employees eliminate or minimize exposure to bloodborne pathogens or other potentially infectious materials.

The Office of Human Resources, Safety Office and the Brady Health Center will promulgate procedures to prevent occupational exposure to bloodborne pathogens and to be followed if an inadvertent percutaneous or permucosal exposure occurs. The Bloodborne Pathogens Policy and Exposure Control Plan will be reviewed at least annually and whenever necessary to reflect new job descriptions and modified tasks and procedures that affect occupational exposure.
