STUDENT EMPLOYMENT POLICY

The University provides students with a variety of opportunities to seek student employment on the campus. Student employees are considered to be temporary, part-time employees of Frostburg State University. The primary purpose of student employment programs is to stimulate and promote the part-time employment of eligible students, while also providing meaningful employment experience and on-the-job training. Funds for these jobs are provided in Object 02-Technical and Special Fees, for state funded positions, in the auxiliary services budget, and from contractual and grant funds that include Federal Work Study. Frostburg State University is an Affirmative Action/Equal Employment Opportunity employer.

Employment is available throughout the institution: in academic departments, administrative offices, and other units of the institution. Eligible students may perform work for the University so long as such work:

* will not result in the displacement of regular workers or impair existing service contracts;
* does not involve politics or religion;
* does not give the student academic credit for a requirement of a degree which is usually performed without remuneration;
* is not solely or primarily for the personal benefit of an individual (publication of a book, thesis, private research, etc.)
