Why did you choose Frostburg State?

I chose FSU because it was the furthest school away from home, but staying in state. When I visited campus, I feel in love with the scenery and people. Everyone at Frostburg was so helpful during my visit and throughout my time as a student.

What is your favorite memory as a student?

My favorite memory as a student would either have to be planning the Wild n Out comedy show, the Jesse McCartney concert, or attending nationals for cheerleading. All 3 experiences are ones I will never forget.

Which professor Influenced you as a student?

Robert "Coop" Cooper. I first met Coop in his Special Events Management course. I was an Event Planning focus so it was one of my required courses, but little did I know that a required course would open up the door for so many opportunities for me. Coop hired me for Late at Lane and the rest is history. He taught me all the ins and outs of event planning and life. He became one of my biggest supporters during my college career and I couldn't be more grateful.

What advice would you give to a student currently studying your major?

Ask for help. If you are struggling, professors and other students are there to help you. Pay attention in class, you never know when something you learned will be useful.
