

Current State

The existing scoreboard for the Frostburg State University softball field is old-fashioned and in need of a replacement or major upgrade.

Program Vision

A new scoreboard for the softball field will enhance the overall experience for FSU athletes and sports fans and will help with the recruitment of student-athletes. Fixed and digital signage will also provide opportunities to generate sponsorships from current and future University partners to help support the Department of Athletics. Our current plan is to continue to work with Daktronics®, our partner who provided the videoboard and scoreboard in Bobcat Stadium, the Tennis Facility and the scorers' tables in Bobcat Arena. Daktronics®, headquartered in South Dakota, is the industry leader in LED scoring and timing.

Funding Needs

The cost for the purchase and installation of a scoreboard for the FSU softball field is \$37,500. A naming opportunity is available.

Your gift toward the purchase of a softball scoreboard will be counted toward FSU's Forging Futures campaign.
