Frostburg State University Employee COVID-19 Vaccine FAQ

1. I have already received the COVID-19 vaccine; will I still be required to wear a face covering?
   Yes, until there are enough people who received the vaccine in the community, and we are given a directive to return to normal, those who received a COVID-19 vaccine must continue to wear face coverings, practice physical distancing, frequently wash their hands and continue other safety measures to protect themselves and others from COVID-19.

2. I have already received the COVID-19 vaccine; will I still be required to practice social distancing?
   Yes, until there are enough people who received the vaccine in the community, and we are given a directive to return to normal, those who received a COVID-19 vaccine must continue to wear face coverings, practice physical distancing, frequently wash their hands and continue other safety measures to protect themselves and others from COVID-19.

3. Are employees required to be vaccinated for COVID-19?
   No. Although vaccinations are recommended, employees are not required to be vaccinated.

4. Are employees required to wait until the vaccine is available on campus to get vaccinated?
   No, employees are encouraged to be vaccinated as soon as they qualify. To locate sites in our immediate vicinity, use the links below to access vaccine interest forms:
   - Allegany County
   - Garrett County

5. How do I locate a vaccination site in Maryland and other information regarding the COVID-19 vaccine?
   Maryland residents can find vaccination clinics and additional resources at: https://onestop.md.gov/preregistration

6. I have been vaccinated for COVID-19; how do I notify the university?
   Employees should self-report vaccination information as soon as receiving their initial shot by indicating the appropriate information on the FSU Check-in portal under the “My Vaccinations” menu — 1st dose, 2nd dose or single shot. Update the second dose information once administered, if applicable.

7. I have completed the vaccination doses for COVID-19; am I still required to be tested on campus?
   Once you have received the required vaccination doses, and upload your information in the portal, you will receive a testing exemption notification through the portal and are no longer required to be tested-on campus.
