

Connecting to Frostburg State University's VPN (Global Protect Client)

- Open a browser to <https://vpn.frostburg.edu>
- Login using your FSU credentials without the '@frostburg.edu'

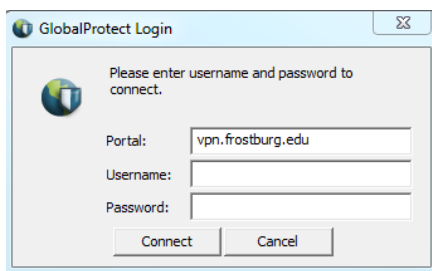

The screenshot shows the 'FSU Secure VPN Portal' login page. At the top left is the Frostburg State University logo. Below it, the text 'FSU Secure VPN Portal' is centered. There are two input fields: 'Name' and 'Password'. Below the 'Password' field is a 'Login' button. At the bottom, there is a 'Legal Notice' in small text: 'Access to this system is restricted to authorized users only and limited to approved business purposes. By using this system you expressly consent to the monitoring of all activities. Any unauthorized access or use of this system is prohibited and could be subject to criminal and civil penalties. All records, reports, email, software and other data generated by or residing upon this system are the property of the State of Maryland and may be used by the State of Maryland.'

- You will be redirected to a page where you will be able to download the appropriate client for use with the VPN. Once you click on the appropriate link, select to run the client install.

The screenshot shows the 'FSU Secure VPN Portal' download page. At the top left is the Frostburg State University logo. Below it, the text 'FSU Secure VPN Portal' is centered. There are three download links: 'Download Windows 32 bit GlobalProtect agent', 'Download Windows 64 bit GlobalProtect agent', and 'Download Mac 32/64 bit GlobalProtect agent'. Below the links, there is text explaining the requirements for each OS: 'Windows 32 bit OS needs to download and install Windows 32 bit GlobalProtect agent.', 'Windows 64 bit OS needs to download and install Windows 64 bit GlobalProtect agent.', and 'Mac OS needs to download and install Mac 32/64 bit GlobalProtect agent.'. At the bottom, there is a 'Legal Notice' in small text: 'Access to this system is restricted to authorized users only and limited to approved business purposes. By using this system you expressly consent to the monitoring of all activities. Any unauthorized access or use of this system is prohibited and could be subject to criminal and civil penalties. All records, reports, email, software and other data generated by or residing upon this system are the property of the State of Maryland and may be used by the State of Maryland.'

- Once downloaded run the install and select all of the defaults.
- Once installed, you may close the install and browser windows.
- You are then presented with the client login application (Global Protect).
- In the portal field enter: vpn.frostburg.edu and then enter your user credentials in the other field without the '@frostburg.edu'. Click connect.

The screenshot shows the 'GlobalProtect Login' application window. The title bar says 'GlobalProtect Login'. The main text says 'Please enter username and password to connect.'. There are three input fields: 'Portal:' with the value 'vpn.frostburg.edu', 'Username:', and 'Password:'. At the bottom, there are two buttons: 'Connect' and 'Cancel'.

- Once connected you may minimize the client.
- For future connections, you will only need to launch the client and not the browser. In the future, you will be prompted for any client upgrades as they become available.
- Be sure to click the disconnect button to log off of the VPN and close your client window.
