Assigned rooms may not be sublet. Each individual is responsible for finding a roommate at room change time. Students may be expected to consolidate to achieve double accommodations within a room. Every effort will be made to accommodate students. If one of the occupants of a room moves, the student who remains agrees to accept an assigned roommate(s) or to move to another room upon request. Residents who misrepresent the truth, intimidate assigned or prospective occupants, or otherwise attempt to manipulate the housing assignment process are subject to being moved to another room, billed for a single room, student conduct action, and/or contract termination.

9. While privacy of the individual's residence hall room is respected, it is also recognized that the part of the room visible to the general public reflects upon the policies, commitments, and philosophy of the University. MENINGITIS ON CAMPUS

KNOW YOUR RISK — LEARN ABOUT VACCINATION

Approximately 3000 people in the United States get meningococcal disease each year and 10% to 15% of these individuals do not survive even with treatment. Bacterial meningitis is a potentially fatal or disabling disease.

First year students living in residence halls are found to have a six-fold increased risk for the disease. A U.S. health advisory panel recommends that college students, particularly first year students living in residence halls, learn more about meningitis and vaccination.

WHAT IS MENINGOCOCCAL MENINGITIS? Meningitis is rare. But when it strikes, this potentially fatal disease can lead to swelling of fluids surrounding the brain and spinal column as well as severe and permanent disabilities, such as hearing loss, brain damage, seizures, limb amputation and even death.

HOW IS IT SPREAD? Meningococcal meningitis is spread through the air via respiratory secretions (sneezing and coughing) or close contact with an infected person (kissing, or sharing of items like utensils, cigarettes, and drinking glasses). Many healthy people carry the bacteria and never become ill; these individuals are healthy carriers.

WHAT ARE THE SYMPTOMS? Symptoms of meningococcal meningitis often resemble the flu and can include high fever, severe headache, stiff neck, rash, nausea, vomiting, lethargy, and confusion.

WHO IS AT RISK? Undergraduate college students 25 years of age or younger, particularly first year students who live in residence halls, have been found to have an increased risk for meningococcal meningitis.

CAN MENINGITIS BE PREVENTED? Yes. The meningococcal vaccine can be effective in preventing four of the five types of the disease (A, C, Y and W-135). The vaccine is safe, with mild and infrequent side effects such as redness or pain at the injection site. After vaccination, immunity develops within 7 to 10 days and remains effective for 3 to 5 years. As with any vaccine, vaccination against meningitis may not protect 100% of individuals.

WHERE IS THE VACCINE AVAILABLE? The meningococcal vaccine is available in some college health centers, travel clinics, some county health departments and the offices of some health care providers. Check with a local agency for availability.

I UNDERSTAND THAT THIS CONTRACT IS BINDING FOR THE FULL ACADEMIC YEAR AND WILL BE VALID IF I RETURN TO FROSTBURG STATE UNIVERSITY AS A STUDENT DURING EITHER THE FALL AND/OR SPRING SEMESTERS.

I understand that this contract can only be canceled through the formal Housing Contract Release process, and conditions for review are limited to major changes in financial situation since signing the contract or medical/psychological needs that cannot be accommodated in on campus housing. Signing another housing contract will NOT release you from this contract. Contract cancelations submitted after the last day of classes of the previous semester will incur a \$50 processing fee.

Students who have fulfilled their 2 year University housing requirement and filled out the Housing Contract Release form through the last day of classes may be released from their contract for a breach of contract fee in the amount of \$500.00 without needing to document major changes in financial situation since signing the contract or medical/psychological needs that cannot be accommodated in on campus housing. Students who do not complete the release request by last day of classes will be required to complete the release from contract process.

I understand that by signing this contract, I agree to conform to the rules and regulations established by the University (as stated in the Terms and Conditions of the Residence Hall Contract, the Residence Hall Guide, The Code of Student Conduct). Violations of these rules and regulations may result in cancelation of my contract, *without refund*. Housing is made available to students of Frostburg State University without regard to race, color, religion, country of national origin, sexual orientation or disability.

MENINGOCOCCAL VACCINE WAIVER: I have received and reviewed the information provided on the risks of meningitis and the effectiveness of meningococcal vaccine. I have received the vaccine, will receive the vaccine, or hereby choose to waive receipt of the vaccine. If I receive the vaccine, I will provide such documentation to the University's Health Center.
