COVID19 Move Out

In an abundance of caution, Frostburg State University is closing the residence halls for the remainder of the 2020 Spring semester. We are limiting how many students may come to campus to move out at a time, so that we can encourage social distancing. Please choose a time that works for you and be here promptly at the beginning of your slot so that you can use the entire 2 hours to pack and move out before the next group of students arrives. We are highly encouraging students to limit the number of people who are with them helping with the move out process.
